**We are pneumatic.  
We are electric.  
We are 30,000 technology-neutral solutions.**

**→ WE ARE THE ENGINEERS  
OF PRODUCTIVITY.**

## Dear customers and distribution partners,

Small, lightweight, highly functional, very attractively priced and available quickly worldwide: when we planned our core product range, these are the characteristics we focused on. With this in mind, we took a close look at many of our products and decided which needed only a rework and which we wanted to redesign from the ground up in order to best meet the above-mentioned criteria.

Our new catalogue for the core product range now contains precisely those products you can use in around 80% of all automation solutions. Even though the majority of them have been around for years, we are constantly adding new components to the core range of over 2200 products, most in multiple variants. The close cooperation between Development and Production ensured that our proven Festo quality remains unchanged, but a significant reduction in manufacturing times – of 50% in some cases.

The redesigned and standardised products therefore offer top quality and unparalleled functionality at very attractive prices for you and your customers – you have my word on it. Just open the catalogue and take a look at the following products:

- The short round cylinder DSNU-S. Interesting if space is limited in your design.
- The extremely small and lightweight compact cylinders ADN-S. For outstanding performance with small movements.
- The new mini slide DGST. The smallest in its class, but still a powerful solution.
- The universal directional control valves VUVG. Sturdy and durable, even in very large quantities – and at a low price!
- The very compact and lightweight regulators and filter regulators MSB4 with a flow rate of 1800 l/min. Perfect for use at the front end and in end-of-arm solutions.
- The many variants of plastic tubing PUN-H. Highly resistant to microbes and hydrolysis and food-safe.
- The positioner CMSX for process automation. No compressed air consumption when the machine is at a standstill and ideal for flow control of process valves, e.g. for dispensing or mixing.

At the same time, we worked consistently on our production and delivery capacities. This is how we ensure worldwide that you receive the products you ordered promptly, even in large quantities.

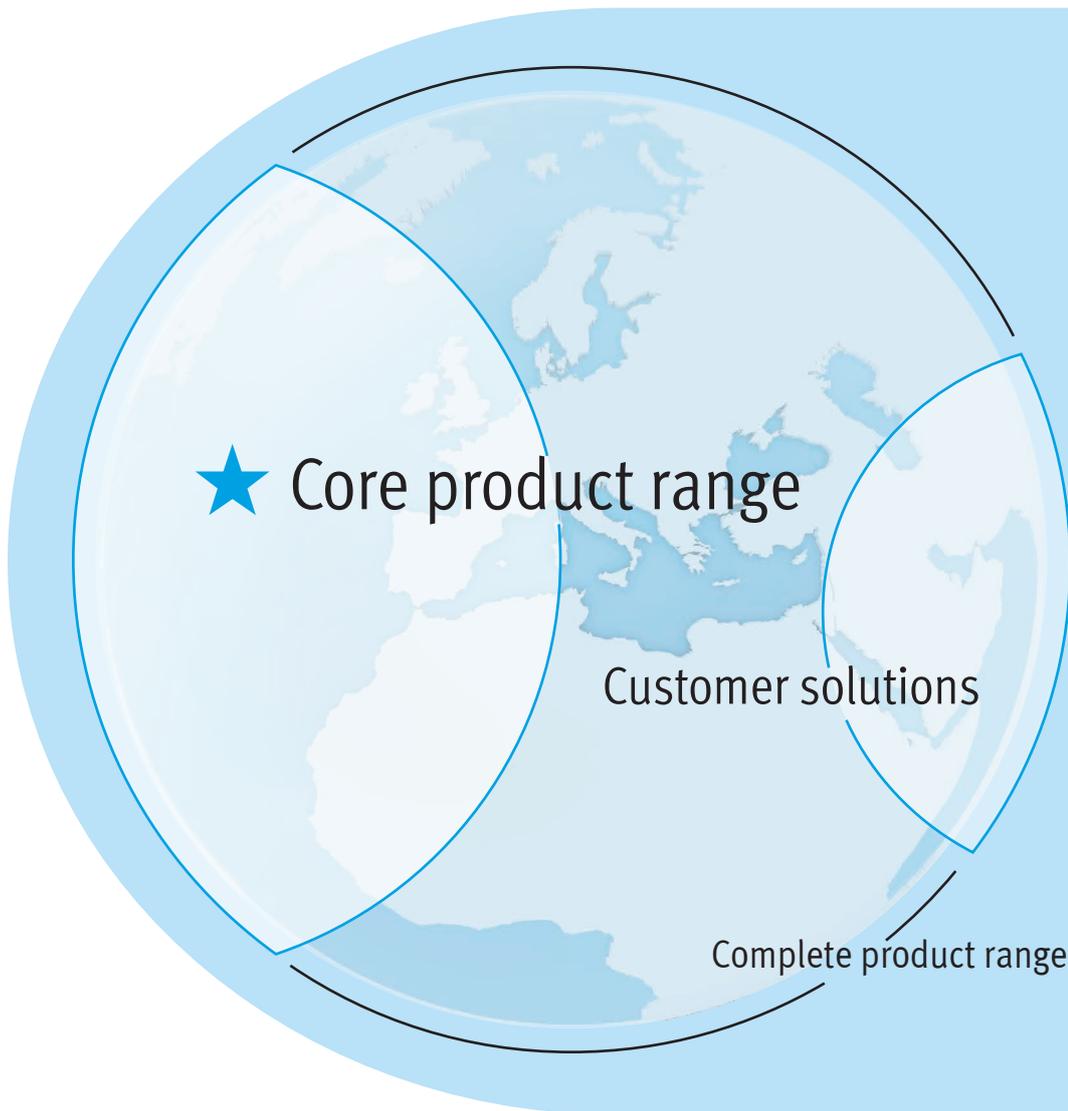

Of course we're also there for you if you need another solution. With electric, pneumatic and digitised automation, whether in factory or process automation. Our goal is to offer you precisely those solutions, services and training that are best for you. Including across technologies. This makes us the engineers of productivity. Make the most of our expertise!

Dr. Ansgar Kriwet  
Member of the Management Board, Sales, Festo SE

You rely on factory automation.  
You rely on process automation.  
We are technology and education.

→ **WE ARE THE ENGINEERS  
OF PRODUCTIVITY.**

## Product range

Producere – implement in advance.

Until the turn of the millennium, production was essentially still synonymous with building up a stock of an item. Now it is better described as “being prepared”, since needs, parameters and processes change rapidly and require thinking and action on several fronts at the same time.

Festo is facing these challenges too, and offers you different levels of solutions in its range.

# 1

### Core Range

Our Core Range offers you special benefits – selected products that solve the majority of your automation tasks. They can be ordered by part number and are particularly attractively priced.

- **Quickest delivery, worldwide – wherever, whenever**
- Best value
- Easy and fast to select

**Just look for the star!**

# 2

### Total product range

You will find solutions for more specific requirements in our total product range, which we will deliver on the indicated date. This part of the range is not specifically identified and also covers innovative cross-technology combinations of products right up to products that carry the seeds of digitalisation within them.

# 3

### Customer solutions

If you cannot find the right products for your task in our range, our specialists in the Customer Solutions department are always available to provide support.

Your partner for all automation questions.  
Get in touch with us at → [www.festo.com](http://www.festo.com)

Digital products and services

## Comprehensive digitalisation concepts

All our development activities for digitalised automation revolve around one question: how can we make you more productive across the entire value chain? From initial engineering, procurement and commissioning to maintenance and operation? No matter where you are in this value chain, at Festo you will find the right digital offer for your needs.

You can already optimise your production and your processes with data analytics, machine learning and artificial intelligence from Festo. With these methods, this transformation will result in new business models.

Software tools from Festo support you in every phase of the machine lifecycle, from initial planning to the modernisation of your plant. They are small, practical tools that make your work easier and much more productive. We have compiled a selection of them here.

→ [www.festo.com/engineeringtools](http://www.festo.com/engineeringtools)

## Pneumatic Sizing

→ [www.festo.com/pneumaticsizing](http://www.festo.com/pneumaticsizing)

You may have already asked yourself: isn't there a quicker and more accurate way to calculate the optimal pneumatic control chain? Yes, there is! Pneumatic Sizing doesn't just offer you one design version, but up to three that are suitable for your application. By entering three application parameters such as load, stroke and positioning time, you will get up to three suggestions: the precise result as well as the performance and eco versions.

Pneumatic Sizing allows you to benefit from:

- Optimal air consumption
- The ideal travel time per cycle
- Direct connections to the Festo Online Shop.

## Festo Design Tool 3D

→ [www.festo.com/fdt-3d-online](http://www.festo.com/fdt-3d-online)

Festo Design Tool 3D is a 3D product configurator for generating Festo-specific CAD product combinations. Your search for matching accessories for standard components with fast delivery, for example for pneumatic cylinder series DSBC, DSNU and ADN, will be faster, more reliable and easier in the future. At the same time your documentation effort is reduced and traceability is simple: generate PDF assembly drawings and bills of materials within the Festo Design Tool 3D and query the traceable order code in the Support Portal.

The benefits for design, purchasing and commissioning:

- Quick and easy automated generation of product combinations
- Shorter bills of materials, fewer sources of error and optimised ordering processes thanks to a single order code for the complete assembly
- Native CAD models for retaining CAD/component links (CAD Constraints, CAD Mates)
- Simplified, accelerated processes in the warehouse and during assembly

## Schematic Solution for EPLAN projects

This circuit diagram service for complete EPLAN projects is unique to Festo: EPLAN Schematic Solution documents your individually configured solutions in next to no time. 3D CAD data and product information for standard catalogue products have been available for 15 years. With EPLAN Schematic Solution you simply enter the order code and receive the complete plan in just a few minutes – error-free and trouble-free. No more tedious searching for, downloading and piecing together individual components.

- Intuitive, fast and reliable: error-free documentation at the push of a button
- Full mechatronic layout of configured products like CPX, VTSA, MPA
- Reliably automated in accordance with the standards IEC 61355, IEC 81346, ISO 1219

→ [www.festo.com/eplan](http://www.festo.com/eplan)

## FluidDraw – circuit diagrams for complete systems

Planning and documenting electric and pneumatic components in your system have never been easier. FluidDraw gives you direct access to the catalogue and any online baskets you saved at Festo, as well as letting you import additional databases and use a standardised symbol library. For maximum convenience choose the FluidDraw 365 software subscription with regular updates and the latest upgrades.

- IMX and Eplan interfaces
- Tubing lengths, wire and cable lengths
- Standardised hydraulic symbols to ISO 1219

→ [www.festo.com/fluiddraw](http://www.festo.com/fluiddraw)

## Smartenance – the digital maintenance manager

Smartenance makes your maintenance management paperless, transparent and efficient. It lets production managers, system operators and maintenance staff schedule autonomous maintenance tasks, report faults on the move and document all their measures. While the web-based application provides administrative support, the app gives access to maintenance schedules and attachments from anywhere. Smartenance is quick and easy to install, self-explanatory and a simple and cost-effective introduction to digitalisation.

- For production managers and plant operators: digital maintenance management directly on the shop floor
- For auditors: detailed proof with one click
- Cloud-based: mobile access from anywhere
- Feedback function: quick and easy collaboration in the maintenance team
- Seamless connectivity thanks to API
- Complete documentation of all activities

→ [www.festo.com/smartenance](http://www.festo.com/smartenance)

## The Festo App World

Festo has set up a separate portal, the Festo App World, for purchasing and using the apps, cloud products, software libraries and added value services.

You can make purchases directly online here, view the relevant apps for your hardware via your Product Key as well as your order history, and set up subscription models or subscriptions.

Simply log in with your Festo account, select the digital product you want, and add it to your basket. You can also just forward the basket to the appropriate colleagues authorised to make purchases.

→ [www.festo.com/appworld](http://www.festo.com/appworld)

Wide range of industry segments – one competent partner.

## Food and packaging industry

From continuous processes through food and splash zones to end line packaging:

- Solutions for controlling special media flows
- Food-safe materials for automation components in clean design
- Handling systems with suitable gripper solutions
- Technology mix: electric, pneumatic and servo-pneumatic

→ [www.festo.com/food](http://www.festo.com/food)

→ [www.festo.com/packaging](http://www.festo.com/packaging)

## Automotive industry and Tier 1 suppliers

- Understanding the processes – from the press shop through to engine and transmission production and Tier 1 suppliers
- Developing solutions – joint engineering projects
- Creating synergies – everything from a single source

→ [www.festo.com/automotive](http://www.festo.com/automotive)

## Small parts assembly and electronics

- Know-how along the entire process chain
- From wafer production at the front end to finished chips at the back end
- For quality inspection and assembly of the finished products
- In small parts assembly, electronic or non-electronic

→ [www.festo.com/ela](http://www.festo.com/ela)

Wide range of industry segments – one competent partner.

## Water treatment

- Integrated automation solutions for the key processes: water and wastewater treatment
- Customer-oriented consulting and engineering
- Supply of components and pre-assembled systems
- Compressed air quality analyses
- Energy Saving Services

→ [www.festo.com/water](http://www.festo.com/water)

## Biotech, pharma and cosmetics industry

- Integrated automation solutions for the key processes: production of active ingredients, manufacturing of pharmaceuticals, cosmetics and personal care products, filling and packaging
- Customer-oriented consulting and engineering
- Supply of components and pre-assembled systems
- Compressed air quality analyses
- Energy Saving Services

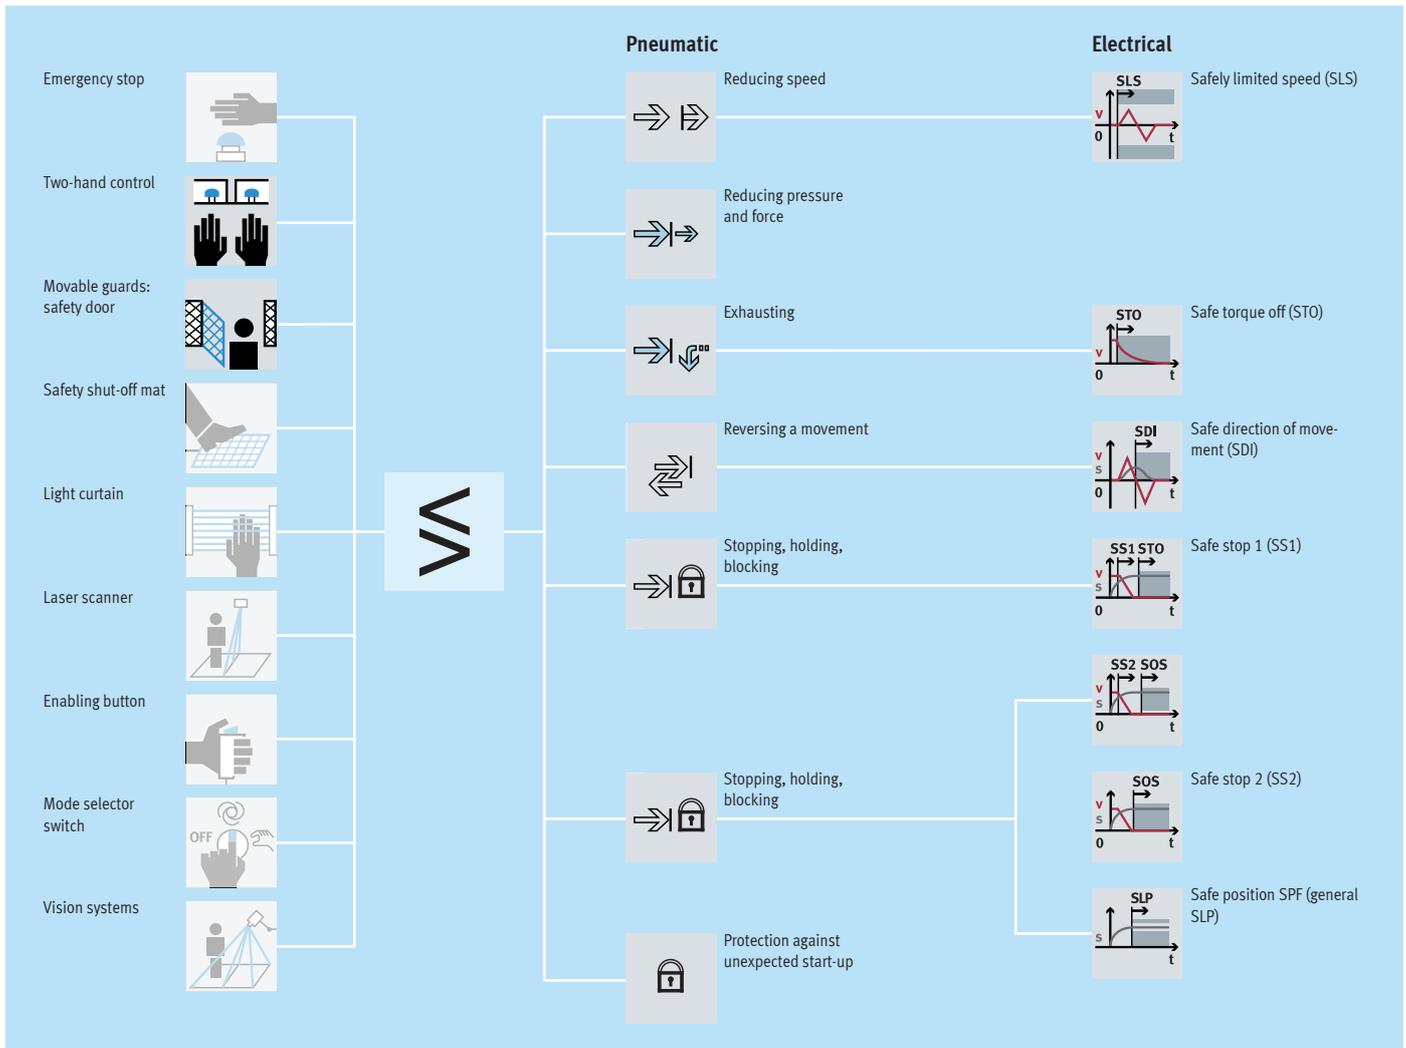

→ [www.festo.com/biotech](http://www.festo.com/biotech)

Your partner for safety

# Reduce risk – think preventively: Safety@Festo

Machines have to be designed in a way that protects people, animals, property and the environment from harm. The objective is to prevent physical damage of any type. With safety-oriented pneumatics from Festo, you can be sure that implemented safety measures are in compliance with the EC Machinery Directive. Festo offers many safety solutions for the entire control chain in the area of electrics and pneumatics, for input, logic and output.

These can be individual products, customer-specific solutions, proposals for safety-related circuit diagrams or training courses. Festo Didactic offers training and consulting services on standards and directives as well as risk assessments and assessments of technical safety measures.

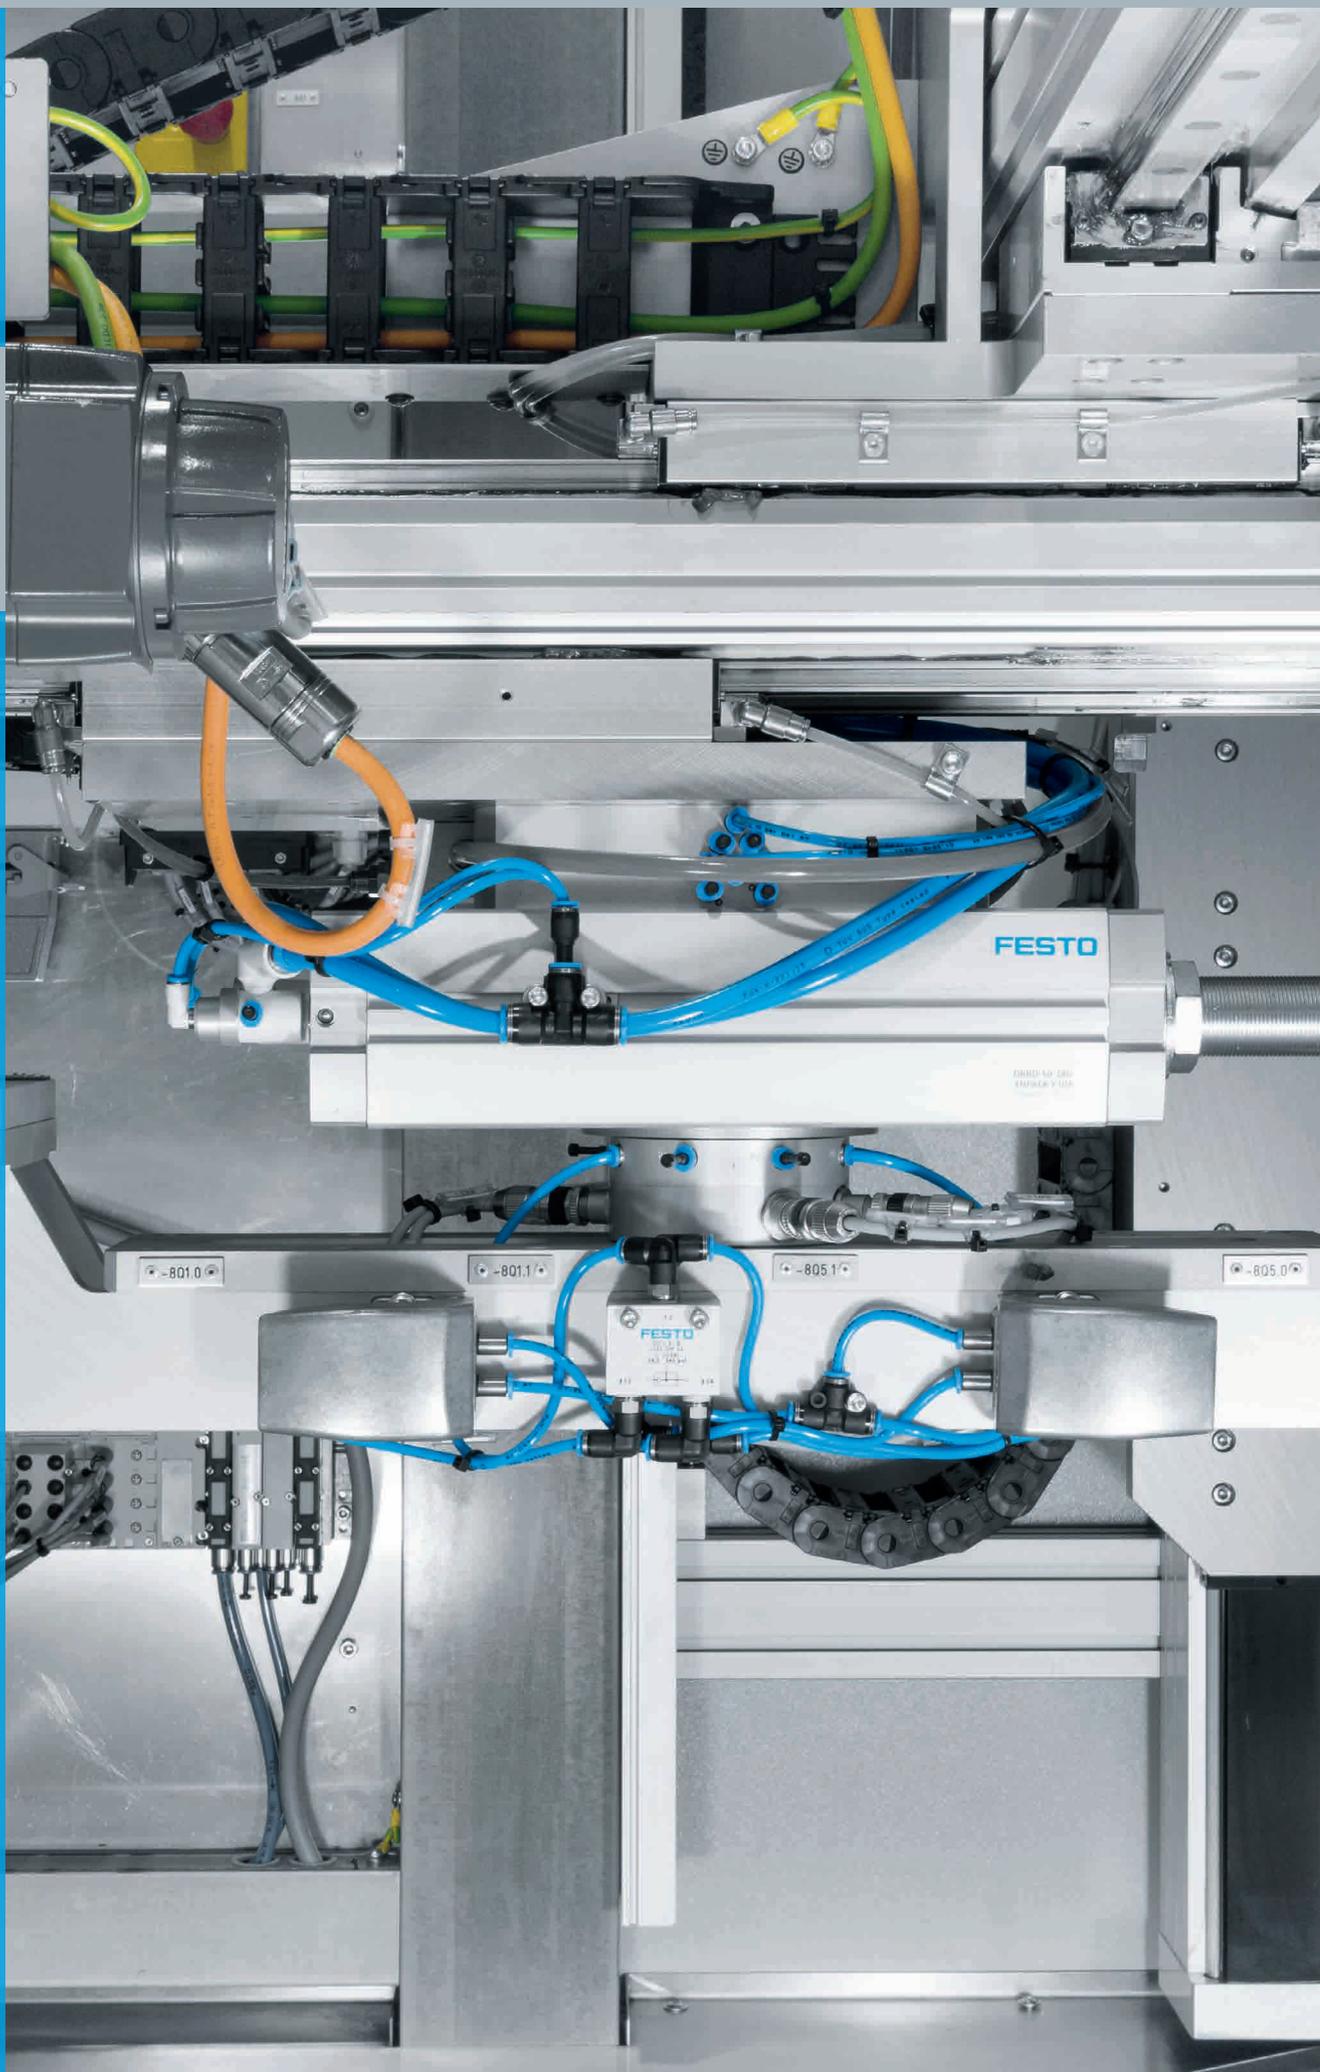

Just ask your local contact person or find out more at [www.festo.com/safety](http://www.festo.com/safety)

Product overview

Software-Tools

Pneumatic drives

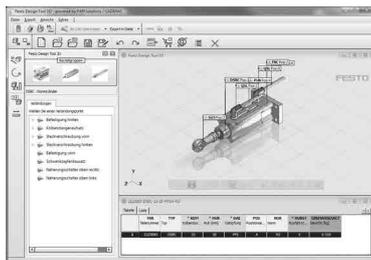

**Pneumatic simulation**

Perfect simulations replace expensive real-life tests. The tool is an expert system that supports you in the selection and configuration of the entire pneumatic control chain. If one parameter is changed, the program automatically adapts all the others.

This tool can be found  
 • on our website at [www.festo.com/catalogue](http://www.festo.com/catalogue) by clicking on the blue button 'Engineering'.

**Festo Design Tool 3D**

The Festo Design Tool 3D is a 3D product configurator for generating specific CAD product combinations from Festo. The configurator makes your search for the right accessory easier, more reliable and faster.

You can then order the module that has been created as a single order item, either completely pre-assembled or as individual parts in a single box. This considerably reduces your bill of materials, and downstream processes such as product ordering, order picking and assembly are significantly simplified.

All ordering options are available in the following countries:  
 AT, BE, CH, CZ, DE, DK, ES, EST, FI, FR, GB, GR, HU, IE, IT, NL, NO, PL, PT, RU, SE, SI, SK, TR, ZA.

This tool can be found  
 • at: [www.festo.com/fdt-3d-online](http://www.festo.com/fdt-3d-online) in the above listed countries.

Product overview

Software-Tools

Pneumatic drives

**Mass moment of inertia**

Juggling pencils and pocket calculators is now a thing of the past. Whether you have discs, blocks, push-on flanges, grippers, etc., this tool does the job of calculating all the mass moments of inertia. Just save, send or print and you're finished.

This tool can be found

- on our website at [www.festo.com/catalogue](http://www.festo.com/catalogue) by clicking on the blue button 'Engineering'.

Semi-rotary drives

**Semi-rotary drives  
DRVS**

**Semi-rotary drives  
DRRD**

<b>Size</b>	6, 8, 12, 16, 25, 32, 40	8, 10, 12, 16, 20, 25, 32, 35, 40, 50, 63
<b>Theoretical torque at 6 bar</b>	0.15 ... 20 Nm	0.2 ... 112 Nm
<b>Permissible mass moment of inertia</b>	6.5 ... 350 kgcm <sup>2</sup>	0.0015 ... 42 kgm <sup>2</sup>
<b>Position sensing</b>	Via proximity switch	Via proximity switch
<b>Swivel angle</b>	0 ... 270°	180°
<b>Description</b>	<ul style="list-style-type: none"> <li>• Double-acting semi-rotary drive with vanes</li> <li>• Lighter than other semi-rotary drives</li> <li>• Fixed swivel angle, adjustable swivel angle possible with the help of accessories</li> <li>• Housing protected against splash water and dust</li> </ul>	<ul style="list-style-type: none"> <li>• Twin-piston rotary drive, power transmission via rack and pinion principle</li> <li>• Extremely accurate in the end positions</li> <li>• Very high load-bearing capacity</li> <li>• Very good axial run-out at the flanged shaft</li> </ul>

## Customised components – for your specific requirements

**Drives with customised designs**

Can't find the pneumatic drive you need in our catalogue?

We can offer you customised components that are tailored to your specific requirements.

Common product modifications:

- Materials for special ambient conditions
- Customised dimensions
- Special strokes
- Customised mounting options
- Implementation of special cylinder functions (cylinder/valve combinations, single-acting principle, etc.)

Many additional variants are possible.

Ask your Festo sales engineer, who will be happy to help:

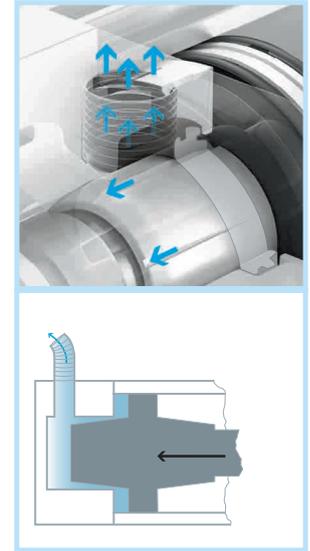

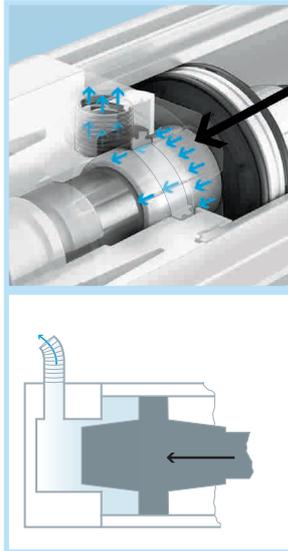

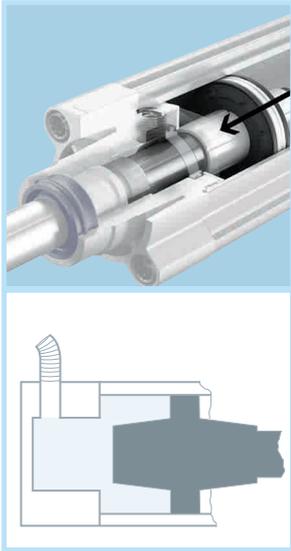

→ [www.festo.com/contact](http://www.festo.com/contact)

## Self-adjusting end-position cushioning PPS for standards-based cylinders

### More productivity, less work: PPS

Simply ingenious: the unique, self-adjusting end-position cushioning PPS saves huge amounts of time during assembly, adjusts optimally to changes in load and speed and allows the cylinder to move dynamically and gently into the end position. This reduces wear on the entire system.

This and many other advantages are the result of the unique design with longitudinal slots which allow air to escape.

### Use the advantages of PPS – in these cylinders

### Software tool

#### Festo Design Tool 3D

The Festo Design Tool 3D is a 3D product configurator for generating specific CAD product combinations from Festo. The configurator makes your search for the right accessory easier, more reliable and faster.

You can then order the module that has been created as a single order item, either completely pre-assembled or as individual parts in a single box. This considerably reduces your bill of materials, and downstream processes such as product ordering, order picking and assembly are significantly simplified.

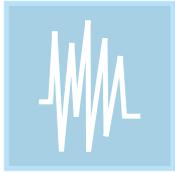

All ordering options are available in the following countries:  
AT, BE, CH, CZ, DE, DK, ES, EST, FI, FR, GB, GR, HU, IE, IT, NL, NO, PL, PT, RU, SE, SI, SK, TR, ZA.

This tool can be found

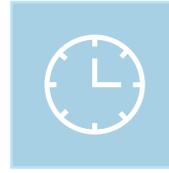

- at: [www.festo.com/fdt-3d-online](http://www.festo.com/fdt-3d-online) in the above listed countries.

## Self-adjusting end-position cushioning PPS for standards-based cylinders

## Less can be more: the advantages of self-adjusting cushioning at a glance

**Less shock**

Running smoothly, Part 1:  
The better the cushioning, the less settling and impact vibration. Better for the cylinder, better for the machine.

**Less time**

Save time and effort in adjusting. The calculation is simple:  
no. of cylinders x 5 mins = time saving.

**Less noise**

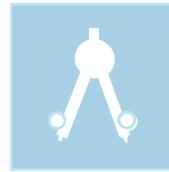

Running smoothly, Part 2:  
Where there is no vibration, there is nothing to disturb the working environment of both workers and machines.

**Less errors**

Always correct. All by itself. PPS cushioning prevents setting errors and automatically compensates for changing loads.

**Less adjustment required:**

Goodbye screwdriver. Not just less adjustment, but no adjustment at all! Standards-based cylinders with PPS cushioning are self-adjusting.

**Less planning**

Making it easy – setting multiple cylinders to run in parallel is a nightmare. Standards-based cylinders with PPS cushioning. Simply fit and forget.

**Less cleaning**

A clean solution. No cushioning screws cuts dust and dirt traps and makes for smoother surfaces. In other words, adjusting-screw-free.

**Less bulky**

Compact cylinders ADN-PPS offer up to 300% more end of stroke energy absorption. Smaller or more powerful, the choice is yours.

**Less variants**

Relaxed purchasing. Cylinders with PPS cushioning have a far wider operating range than most standard cylinders. The result is fewer variants with more application options.

**Less risk**

No screws, no setting on live machinery; safer and faster. And no operator fiddling. Standards-based cylinders with PPS are self-adjusting.

**Less wear**

Self-adjusting means always perfectly set. Perfectly set cushioning means that cylinders operate more smoothly and longer. More machine uptime and greater throughput.

**Less stock**

Less is more. Your finance department will think so too. PPS cushioning enables a narrower range of cylinders to cover the same performance range. And less stock = lower costs.

Cylinders with piston rod > Standards-based cylinders >

## Compact cylinders ADN, to ISO 21287, double-acting ★

- Compact cylinders with standard dimensions
- Up to 50% less installation space than comparable standards-based cylinders to ISO 15552
- Innovative technology for maximum speeds
- Flexible in use thanks to easy-to-configure variants
- Selected types in accordance with ATEX directive for potentially explosive atmospheres

50, 63	SGA-M12x1,25	10767
80	SGA-M16x1,25	10768

## Standards-based cylinders DSBC, to ISO 15552, double-acting ★

- Strokes of up to 2800 mm
- Excellent flexibility thanks to wide range of variants
- Extensive range of accessories makes it possible to install the cylinder virtually anywhere

- Selected types in accordance with ATEX directive for potentially explosive atmospheres

## Order code – Basic design

001	002	003	004	005	006	007	008	009	010
DSBC								A	N3

Legend:  Mandatory entry  Optional entry

001	Type
DSBC	Standards-based cylinder, double-acting, based on ISO 15552
002	Protection against rotation
–	Without protection against rotation
003	Running characteristics
–	Standard
004	Piston Ø [mm]
...	32, 40, 50, 63, 80
005	Stroke [mm]
...	20, 25, 30, 40, 50, 60, 70, 80, 100, 125, 150, 160, 200, 250, 300, 320, 400, 500
006	Piston rod type
–	At one end

007	Piston rod thread type
–	Male thread
008	Cushioning
PPV	Pneumatic cushioning, adjustable at both ends
PPS	Pneumatic cushioning, self-adjusting at both ends
009	Position sensing
A	Via proximity switch
010	Standard
N3	Conforms to ISO 15552

## Product options

100, 125 mm Piston Ø	E1	End-position locking at both ends	D3	Sensor slot on 3 sides	A1	Increased chemical resistance
1 ... 2800 mm Variable stroke			P	Elastic cushioning rings/ plates both ends	A2	Hard scraper
Q With protection against rotation	E2	End-position locking with advanced piston rod	R3	High corrosion protection	A3	Suitable for unlubricated operation
L Running characteristic low friction	E3	End-position locking with retracted piston rod	T1	Heat-resistant seals up to max. 120 °C	A6	Metal scraper
U Uniformly slow movement	T	Through piston rod	T3	Low temperature	EX4	EU certification (II 2GD)
L1 Low friction for balancer applications	F	Female piston rod thread	T4	Heat-resistant seals up to max. 150 °C	...E	Extended piston rod
C Clamping unit attached			P2	Bellows on bearing cap	...L	Extended piston rod thread
					Standard:	based on ISO 15552

## Mini slides DGST, double-acting ★

- Very compact design
- Shortest mini slide on the market
- Powerful twin-piston drive
- Very precise recirculating ball bearing guide
- Yoke plate and slide manufactured from a single piece
- Easy end-position adjustment
- Short cycle times and high effective force with twin piston
- High precision and robustness

- 1 Push-in fitting QSM → 47, 166
- 2 One-way flow control valve GRLA → 47, 109
- 3 Centring sleeve ZBH → 47
- 4 Proximity sensor SMT-10M/SMT-8M → 127/125  
Position transmitter SMAT-8M/SDAT → [dgst](#)
- 5 Shock absorber DYEF (included in the scope of delivery of the mini slide DGST-P) → 47
- 6 Shock absorber DYSS (included in the scope of delivery of the mini slide DGST-Y12) → 47
- 7 Threaded sleeve included in the scope of delivery of the shock absorber 5/6

## 1 Push-in fitting QSM

For piston Ø [mm]	Type	Part no.
For connecting compressed air tubing with standard outside diameters		
8, 10, 12, 16	QSM-M5-4	★ 153304
20, 25	QSM-1/8-6	★ 153307

## 2 One-way flow control valve GRLA

For piston Ø [mm]	Type	Part no.
For regulating speed		
8, 10, 12, 16	GRLA-M5-QS-6-D	★ 193139
20	GRLA-1/8-QS-8-D	★ 193145

3 Centring sleeve ZBH<sup>1)</sup>

For piston Ø [mm]	Type	Part no.
For centring loads and attachments on the slide		
8, 10, 12, 16	ZBH-5	189652
20	ZBH-12	189653
For centring loads and attachments on the yoke plate		
8, 10	ZBH-5	189652
12, 16	ZBH-7	186717
20	ZBH-12	189653
For centring the mini slide during mounting		
8	ZBH-5	189652
10, 12	ZBH-7	186717
16	ZBH-9	150927
20	ZBH-12	189653

1) Packaging unit 10 pieces

5 Shock absorber DYEF-Y1<sup>1)</sup> without fixed stop, standard

For piston Ø [mm]	Type	Part no.
For DGST-...-P, elastic cushioning at both ends, self-adjusting, with end-position adjustment		
6	DYEF-G8-M4-Y1	★ 8073902
8	DYEF-G8-M5-Y1	★ 8073903
10	DYEF-G8-M6-Y1	★ 8073904
12	DYEF-G8-M8-Y1	★ 8073905
16	DYEF-G8-M10-Y1	★ 8073906
20	DYEF-G8-M12-Y1	★ 8073907
25	DYEF-G8-M14-Y1	★ 8073908

1) Included in the scope of delivery of the mini slide DGST-P (2 pieces).

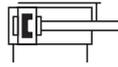

6 Shock absorber DYSS<sup>2)</sup> with fixed stop

For piston Ø [mm]	Type	Part no.
For DGST-...-Y12, shock absorbers at both ends, self-adjusting, with end-position adjustment		
6	DYSS-G8-2-4-Y1F	★ 8073911
8	DYSS-G8-3-4-Y1F	★ 8073912
10	DYSS-G8-4-4-Y1F	★ 8073913
12	DYSS-G8-5-5-Y1F	★ 8073914
16	DYSS-G8-7-5-Y1F	★ 8073915
20	DYSS-G8-8-8-Y1F	★ 8073916
25	DYSS-G8-10-10-Y1F	★ 8073917

2) Included in the scope of delivery for the mini slide DGST-Y12 (2 pieces).

Drives with guides > Drives with guide rods >

Guided drives DFM, double-acting ★

- Drive and guide unit in a single housing
  - Sturdy and precise
  - Plain or recirculating ball bearing guide
  - High resistance to torques and lateral forces
  - Wide range of applications
- Selected types in accordance with ATEX directive for potentially explosive atmospheres

Software-Tools

02 Grippers

**Product finder for grippers**

A secure grip is a question of the right calculation. In this case, calculation of weight, direction of movement, distances, etc.

The software tool immediately determines which type of gripper - parallel, three-point, angle or swivel/gripper - and which size best matches your requirements.

This tool can be found

- on our website at [www.festo.com/catalogue](http://www.festo.com/catalogue) by clicking on the blue button "Product Finder".

Parallel grippers

	 Parallel grippers, electric EHPS	 Parallel grippers DHPS	 Parallel grippers HGPT	 Parallel grippers HGPL-B
<b>Total gripping force at 6 bar, closing</b>	See documentation on our website	25 ... 910 N	106 ... 6300 N	158 ... 2742 N
<b>Stroke per gripper jaw</b>	10 ... 16 mm	2 ... 12.5 mm	1.5 ... 25 mm	20 ... 150 mm
<b>Position sensing</b>	Via proximity switch	Via Hall sensor, via proximity switch	Via proximity switch	Via proximity switch
<b>Gripping force backup</b>		During opening, during closing	During opening, during closing	
<b>Description</b>	<ul style="list-style-type: none"> <li>• Electric version of the pneumatically actuated parallel gripper DHPS</li> <li>• Ideal for use as a front-end actuator thanks to its low dead weight</li> <li>• Controller-free actuation using digital signals</li> <li>• Adjustable gripping force (4 settings)</li> </ul>	<ul style="list-style-type: none"> <li>• Heavy-duty, precision T-slot guide for gripper jaws</li> <li>• High gripping force with compact size</li> <li>• Max. repetition accuracy</li> <li>• Wide range of options for mounting on drives</li> </ul>	<ul style="list-style-type: none"> <li>• Sturdy and powerful</li> <li>• With T-slot guide</li> <li>• Suitable for external and internal gripping</li> <li>• Gripper jaw guide protected by sealing air against dust</li> <li>• High-force variant available</li> </ul>	<ul style="list-style-type: none"> <li>• Space-saving, high forces and torques</li> <li>• Controlled, precise and centred gripping</li> <li>• Long stroke: long guide length for the gripper jaws</li> <li>• Suitable for external and internal gripping</li> <li>• Opening stroke can be adjusted to optimise time</li> </ul>

## Customised components – for your specific requirements

### Drives with customised designs

Can't find the electromechanical drive you need in our catalogue?

We can offer you customised components that are tailored to your specific requirements.

Common product modifications:

- Special strokes
- Design for special ambient conditions
- Design optimised for the installation space
- Design with carriages moving in opposite directions
- Design with absolute encoder

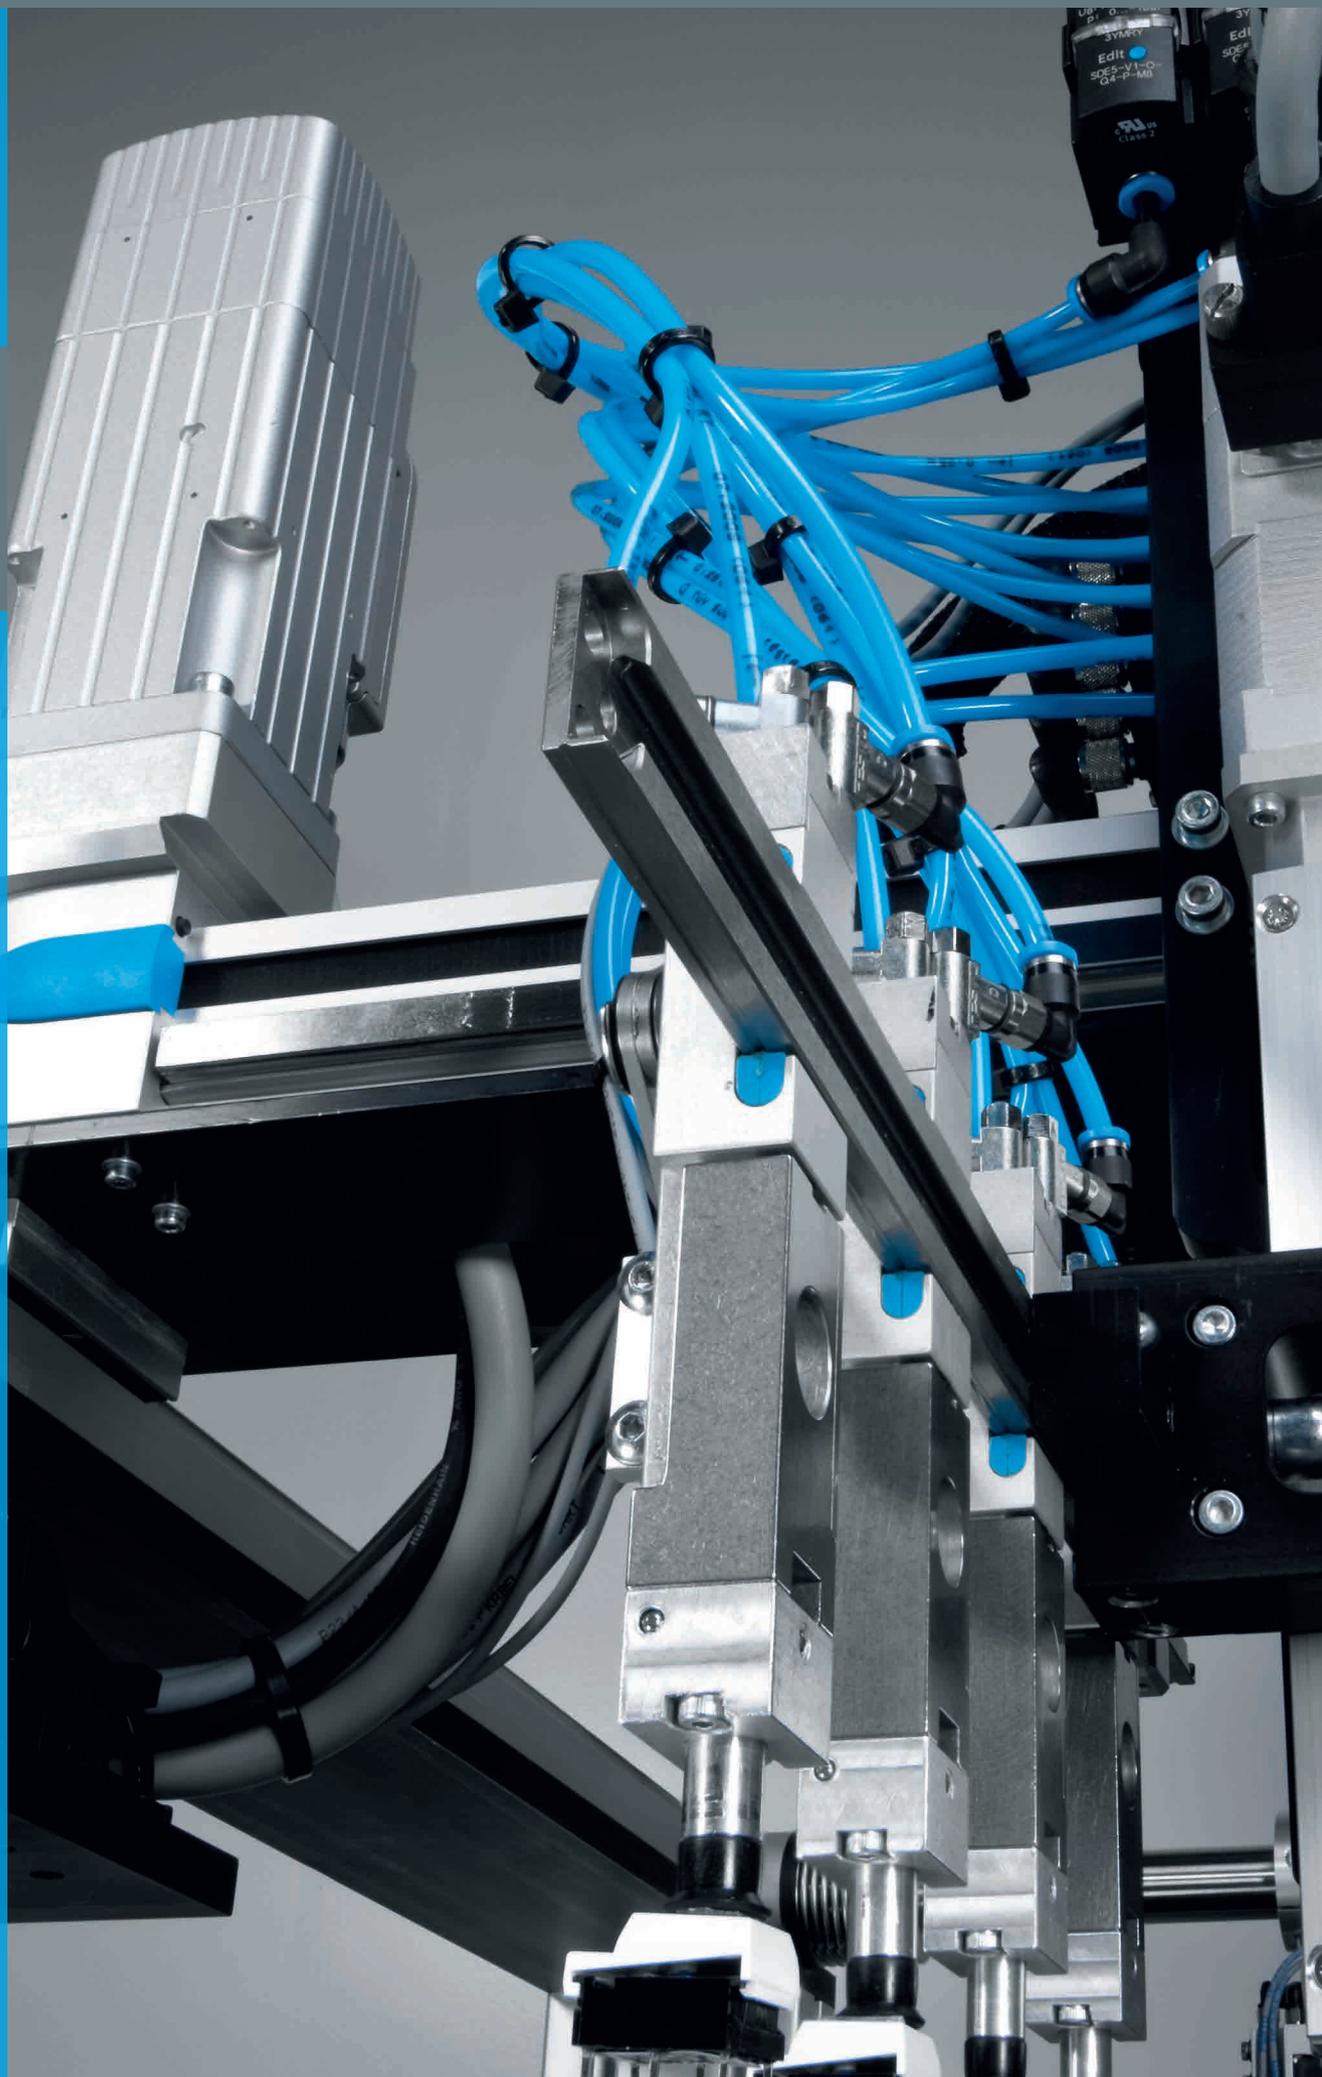

Many additional variants are possible.

Ask your Festo sales engineer, who will be happy to help:

→ [www.festo.com/contact](http://www.festo.com/contact)

Product overview

Software-Tools

**Festo Configuration Tool (FCT)**

FCT is a configuration and parameterisation software program that supports all Festo devices, in particular motor controllers.

It is extremely flexible, provides full support for the device properties and is simple and intuitive to operate.

The user is guided step-by-step through the commissioning process while each individual step is checked.

The parameterisation software can be found on the website under Support > Support Portal > enter search term > select "Software" tab.

**PositioningDrives: for selecting and sizing electromechanical linear drives, motors, and gear units**

Which electromechanical linear drive, which motor and which gear unit best meets your needs?

Enter the data for your application, such as position values, effective loads and mounting position, and the software will suggest several solutions.

This tool can be found

- in the electronic catalogue by clicking on the blue button "Engineering".

Servo motors

Servo motors  
EMME-AS

<b>Nominal torque</b>	0.12 ... 6.4 Nm
<b>Nominal rotational speed</b>	3000 ... 9000 1/min
<b>Peak torque</b>	0.7 ... 30 Nm

Product overview

Software-Tools

**Festo Automation Suite commissioning software**

Quickly and reliably to a ready-to-use drive system – the Festo Automation Suite combines the parameterisation, programming and maintenance of Festo components in one program and enables the entire drive package, from the mechanical system to the controller, to be commissioned. Perfect for making industrial automation simple, efficient and seamless.

**Servo drive plug-in CMMT-AS**

- An operational drive system in just 5 steps – parameterisation is almost fully automatic with the commissioning wizard
- Advanced editing with the expert view: full access to all device parameters
- Conveniently install the plug-in using the software

This tool can be found

- on our website at [www.festo.com/AutomationSuite](http://www.festo.com/AutomationSuite)

Controllers for AC servo motors

Servo drives  
CMMT-AS

Motor controllers  
CMMP-AS-M0, CMMP-AS-M3

<b>Nominal current</b>		2 ... 13 A
<b>Nominal operating voltage AC</b>	230 ... 400 V	230 ... 400 V
<b>Nominal operating voltage phases</b>	1-phase, 3-phase	1-phase, 3-phase
<b>Nominal power of controller</b>	350 ... 2500 VA	500 ... 9000 VA
<b>Fieldbus coupling</b>	EtherCAT, PROFINET	CANopen, DeviceNet, EtherCAT, EtherNet/IP, Modbus/TCP, PROFINET, PROFIBUS DP
<b>Description</b>	<ul style="list-style-type: none"> <li>• Can be used universally</li> <li>• The latest generation of servo drive systems with optimised prices and sizes</li> <li>• One of the most compact servo drives on the market</li> <li>• Configure standard safety functions without software</li> <li>• Auto-tuning supports easy commissioning and automatically optimises the control behaviour of rotary and linear motions</li> <li>• Precise force, speed and position control</li> <li>• Optimised for use with servo motor EMMT-AS</li> </ul>	<ul style="list-style-type: none"> <li>• Many interfaces and functions for decentralised motion functions (flying saw, flying measurement, modulo function, etc.)</li> <li>• Optional: integrated cam disk controllers and highly dynamic movements</li> <li>• Standardised interfaces allow seamless integration in mechatronic multi-axis modular systems</li> <li>• Reliable and convenient commissioning and parameterisation with the Festo Configuration Tool (FCT)</li> <li>• Optionally with 3 slots, safety module or extension module</li> <li>• 255 position sets</li> </ul>

Software-Tools

**Engineering tool:  
Handling Guide Online (HGO)**

Planning and designing complex handling systems, e.g. for pick & place applications, generally takes a lot of time.

With the innovative Handling Guide Online (HGO) you can design a tailor-made system in just a few steps. Simply enter your application data such as the load mass, travel and cycle time.

Advantages:

- 1D- ... 3D kinematics
- Tailor-made system solution within just a few minutes
- CAD model available immediately
- Fully automatic selection of all relevant components
- Fully automated processing including ordering function
- Fully assembled or unassembled systems

This tool is integrated in the Festo online catalogue or can be called up directly at [www.festo.com/handling-guide](http://www.festo.com/handling-guide)

Product overview

Application-specific directional control valves

	 Solenoid valves VOFD	 Solenoid valves VOFC	 Solenoid valves MHE2, MHP2, MHA2, MHE3, MHP3, MHA3, MHE4, MHP4, MHA4	 Fast-switching valves MHJ9, MHJ10
<b>Design</b>	Directly actuated poppet valve	Piston spool, piloted poppet valve	Pressure-relieved poppet valve	Poppet valve without spring return
<b>Valve function</b>	3/2-way, single solenoid, closed, semi-automatic, 3/2-way, single solenoid, closed	3/2-way, single solenoid, closed, 5/2-way, double solenoid, 5/2-way, single solenoid	3/2-way, single solenoid, closed, 3/2-way, single solenoid, open, 5/2-way, single solenoid	2/2-way, single solenoid, closed
<b>Operating pressure</b>	0 ... 12 bar	0 ... 10 bar	-0.9 ... 8 bar	0.5 ... 8 bar
<b>Ambient temperature</b>	-50 ... 60°C	-25 ... 60°C	-5 ... 60°C	-5 ... 60°C
<b>Pneumatic connection 1</b>	Connection pattern to NAMUR, 1/4 NPT, G1/4, M5	Connection pattern to NAMUR, G1/2, G1/4, M5, NPT1/4-18	Sub-base, G1/4, G1/8, M7, QS-4, QS-6, QS-8	Sub-base, QS-4, QS-6
<b>Standard nominal flow rate</b>	52 ... 1900 l/min	766 ... 2686 l/min	90 ... 400 l/min	50 ... 160 l/min
<b>Description</b>	<ul style="list-style-type: none"> <li>• Suitable for process automation, for applications in chemical and petrochemical plants</li> <li>• Suitable for outdoor use under harsh, dusty ambient conditions</li> <li>• Especially suitable for quarter turn actuators thanks to NAMUR flange pattern</li> <li>• Variants with TÜV approval up to SIL3 acc. to IEC 61508</li> </ul>	<ul style="list-style-type: none"> <li>• Suitable for process automation, for applications in chemical and petrochemical plants</li> <li>• Suitable for outdoor use under harsh, dusty ambient conditions</li> <li>• Especially suitable for quarter turn actuators thanks to NAMUR flange pattern</li> <li>• Valve can switch between internal and external pilot air</li> <li>• Variants with TÜV approval up to SIL3 acc. to IEC 61508</li> </ul>	<ul style="list-style-type: none"> <li>• Directly actuated poppet valve</li> <li>• Fast-switching valve: switching times down to 2 ms</li> <li>• Direct mounting, individual sub-base, manifold assembly</li> <li>• Manifold block for 2 ... 10 valves</li> </ul>	<ul style="list-style-type: none"> <li>• Directly actuated poppet valve</li> <li>• Identical basic valves for direct mounting or manifold installation</li> <li>• Individual valve with integrated QS fitting</li> <li>• Switching frequencies up to 1000 Hz</li> <li>• Service life &gt; 5 billion switching cycles</li> <li>• Very good reproducibility</li> <li>• MHJ9: Valve manifold assembly with individual outputs or with air nozzle output</li> <li>• MHJ9: Electrical connection via connecting cable MHJ9-KMH with integrated control electronics</li> <li>• MHJ10: Valve manifold assembly with individual outputs</li> <li>• MHJ10: Electrical connection via moulded-in cable, control electronics included in the valve</li> </ul>

## Ball valves and shut-off valves

	 Hand slide valves VBOH	 Ball valves QH-QS, QHS-QS
<b>Valve function</b>	3/2-way, bistable	2/2-way, bistable
<b>Pneumatic connection 1</b>	G1/2, G1/4, G1/8, G3/4, G3/8, M5	QS-4, QS-6, R1/8
<b>Standard nominal flow rate</b>	236 ... 7691 l/min	148 ... 560 l/min
<b>Operating pressure</b>	-0.95 ... 12 bar	-1 ... 10 bar
<b>Description</b>	<ul style="list-style-type: none"> <li>Used as a shut-off function for pressurising and exhausting compressed air systems, e.g. upstream of service unit combinations, for air guns and also for exhausting pneumatic cylinders</li> <li>Non-overlapping, so no pressure losses when switching</li> <li>Minimal installation effort</li> </ul>	<ul style="list-style-type: none"> <li>Shut-off valve, manually operated</li> <li>In-line installation, can be screwed in, bulkhead fitting</li> <li>Variants: thread at both ends, push-in connector at both ends, thread/push-in connector</li> </ul>
<b>→ Page/online</b>	<a href="#">vboh</a>	<a href="#">qh</a>

## One-way flow control valves

	 One-way flow control valves GRLA, GRLZ	 One-way flow control valves VFOF
<b>Valve function</b>	Exhaust air one-way flow control function, one-way flow control function, supply air one-way flow control function	Exhaust air one-way flow control function
<b>Pneumatic connection 1</b>	G1/2, G1/4, G1/8, G3/4, G3/8, M3, M5, PK-3, PK-3 with union nut, PK-4, PK-4 with union nut, PK-6 with union nut, QS-10, QS-12, QS-3, QS-4, QS-6, QS-8	QS-6, QS-8
<b>Standard nominal flow rate in flow control direction</b>	0 ... 4320 l/min	240 ... 590 l/min
<b>Adjusting element</b>	Knurled screw, slotted head screw, internal hex	Internal hex
<b>Description</b>	<ul style="list-style-type: none"> <li>Flow control valve, flow control at one end</li> <li>Polymer, metal or stainless steel design</li> <li>Standard, mini, in-line variants with different flow rates</li> <li>Functional combination of one-way flow control valve and piloted check valve</li> <li>Connections: thread at both ends, push-in connector at both ends, thread/push-in connector</li> </ul>	<ul style="list-style-type: none"> <li>Functional combination of one-way flow control valve and piloted check valve</li> <li>High flow rate</li> <li>Can be rotated horizontally through 360° when mounted</li> <li>Compact and can be operated from the side</li> </ul>

## Solenoid actuated process and media valves

	 Reverse jet pulse valves VZWE-E, VZWE-F	 Solenoid valves VZWP
<b>Design</b>	Angled version, straight version with flange, diaphragm valve	Piloted piston poppet valve
<b>Actuation type</b>	Electrical	Electrical
<b>Nominal width</b>	20 ... 76 mm	13 ... 25 mm
<b>Flow rate Kv</b>	15 ... 210 m <sup>3</sup> /h	1.5 ... 11.5 m <sup>3</sup> /h
<b>Temperature of medium</b>		-10 ... 80°C
<b>Medium pressure</b>	0.35 ... 8 bar	0.5 ... 40 bar
<b>Process valve connection</b>		1 NPT, 1/2 NPT, 1/4 NPT, 3/4 NPT, 3/8 NPT, G1, G1/2, G1/4, G3/4, G3/8
<b>Description</b>	<ul style="list-style-type: none"> <li>• High flow rates</li> <li>• For mechanically cleaning filters and dust filter systems</li> <li>• Fast opening and closing times</li> <li>• Sturdy pilot system</li> </ul>	<ul style="list-style-type: none"> <li>• For all applications with a differential pressure of min. 0.5 bar</li> <li>• For high pressures and high flow rates with relatively small solenoids</li> <li>• For controlling gaseous and liquid media in open circuits</li> </ul>

Customised components – for your specific requirements

Valves with customised designs

Can't find the valve you need in our catalogue?

We can offer you customised components that are tailored to your specific requirements.

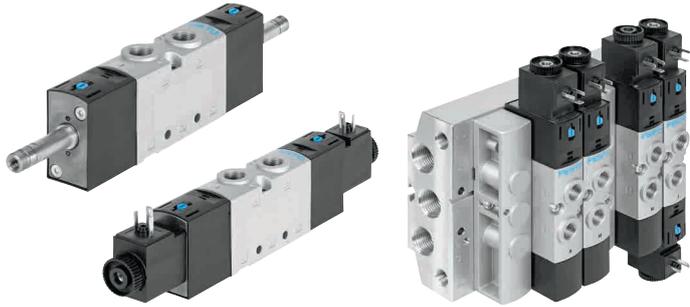

Common product modifications:

- Coatings for special ambient conditions
- Customised cables: length, pin allocation, pre-assembled with plug
- Modified actuating elements
- Modified connecting thread
- Modified valve sub-bases

Many additional variants are possible.

Ask your Festo sales engineer, who will be happy to help:

→ [www.festo.com/contact](http://www.festo.com/contact)

- Width of valves 20 (21 mm), 25 (26.5 mm), 30 (31 mm), flow rate up to 2300 l/min
- In-line valves can be used as individual valves or manifold valves
- Variable pressure zones
- Universal valve, sturdy and durable
- Low-cost, no limitations with regard to performance
- Can be used as a valve manifold VTUS

## Product options

### Valve functions:

M32U 3/2-way valve, single solenoid, open  
 P53U 5/3-way valve, pressurised  
 P53E 5/3-way valve, exhausted  
 T32... 2x 3/2-way valve

### Pilot air supply:

Z External

### Manual override:

S Covered  
 H Non-detenting

### Pneumatic connection:

Push-in connector 4 ... 12 mm

### Exhaust:

QN With fitting  
 U Silencer

### Nominal operating voltage:

24 V AC, 230 V AC, 230/240 V AC, 12 V DC, 110/120 V AC

### Degree of protection for electrics:

S8 IP67

## Ordering – Product options

 Configurable product

This product and all its product options can be ordered online via the configurator:

Description	Type	Part no.
Connection pattern type A, to EN 175301-803		
24 V DC	VACF-A-A1-1	8030822

## Designed for reliable and easy operation

The VUVG has been a huge success since it was introduced. This is due in no small part to its first-class pneumatic performance as well as numerous other technical refinements.

Integrated LED for 360° view – convenient for a fast status overview as well as reduced downtimes.

Standard: the non-detenting/detenting manual override for easy commissioning.

Click! Just snap it in and it's done. E-box with numerous connection options for optimum integration into your system concept.

Retained mounting screws: robust, secure mounting, no lost parts.

Locating lug for correct mounting of the valve.

Imperial connections (inch sizes) can be implemented trouble-free with hybrid fittings.

Several pressure zones possible – quickly and easy with separators.

Positive-locking seal integrated into the valve.

Make the most of the available installation space with a host of connection options and functions.

Highly flexible: individual valves can be assembled in series without an additional manifold strip thanks to axial mounting bores.

No additional components required to mount an individual valve onto a valve manifold.

Electrically and pneumatically actuated directional control valves > Universal directional control valves >

## Solenoid valves VUVG ★

In-line valve VUVG-L10 with seal VABD-L1-10X

Sub-base valve VUVG-B10

- Connection technology via electrical connection box (E-box)
- Specific I-Port interface from Festo for fieldbus node
- IO-Link® mode for direct connection to a higher-level IO-Link® master
- Festo-specific I-Port interface with interlock
- Variable multi-pin plug connection using Sub-D or flat cable
- Sturdy and durable metal components
- Reversible piston spool valves
- Up to 24 valve positions

### Product options

Type of directional control valve:

S Semi in-line valve

Valve functions:

M32C 3/2-way valve, single solenoid, closed

M32U 3/2-way valve, single solenoid, open

P53U 5/3-way valve, pressurised

P53E 5/3-way valve, exhausted

T32... 2x 3/2-way valve

Pilot air supply:

Z External

Manual override:

S Covered

H Non-detenting

Pneumatic connection:

Push-in connector 6 ... 10 mm

Push-in connector 5/32" ... 3/8"

Exhausting:

U Silencer

QN With fitting

Nominal operating voltage:

5 V DC, 12 V DC

Electrical connection

T1 Plug-in

H... Connection pattern H

S... Connection pattern S

L... With flying leads

K... With cable

R... Individual plugs

P3 Without electrical connection box

## Ordering – Product options

## Solenoid valves VSNC, to NAMUR ★

- Connection G1/4
  - Flow rate 1250 l/min
  - Voltage 12, 24, 48 V DC, 24, 48, 120, 230 V AC
  - Namur connection pattern to VDE/VDI 3845
  - Solenoid actuated, piloted
  - Mechanical spring return
  - Can be converted from 5/2- to 3/2-way function
  - Selected types in accordance with ATEX directive for potentially explosive atmospheres
- [www.festo.com/ex](http://www.festo.com/ex)

## Solenoid valve VSVA, to ISO 5599-1 ★

- Sturdy metal design
- Width 42 mm/ISO size 1
- Flow rate up to 1300 l/min
- Solenoid coil with central plug M12, 24 V DC
- Wide range of vertical stacking modules: pressure regulator, flow control, vertical pressure shut-off plate, etc.
- Also available as a valve manifold

## Solenoid valve VSVA, to ISO 15407-1 ★

- High-performance valves in a sturdy metal housing
- Width of standards-based valve 18/26 mm, flow rates up to 1400 l/min
- Manifold assembly with mixture of sizes possible
- Electrical connection via round or square plug socket
- Complete and standardised valve range
- Wide range of vertical stacking modules: pressure regulator, flow control valve, vertical pressure shut-off plate, etc.

## Valve terminals

# Highlights

# Contents

Valve manifolds with individual electrical connection

**VTUG-S**

- + Compact universal series
- + High flow rate

→ 114

Valve terminals with multi-pin plug or fieldbus connection

**VTUG**

- + Energy-efficient thanks to reverse operation and targeted pressure reduction
- + Especially suitable for control cabinet installation

→ 114

Valve terminals

**MPA-S**

- + Extremely flexible
- + Open to PROFIBUS-DP, INTERBUS®, CANopen, DeviceNet®, CC-LINK®

→ 115

Product overview

Software-Tools

Product Finder for valve terminals

Find the right valve terminal quickly with the help of the Product Finder.

Start the Product Finder by clicking on the blue button "Product Finder" under "Products". Select the technical features on the left-hand side step-by-step; the selection of suitable products on the right-hand side is automatically updated to reflect the chosen technical features.

The use of logic checks ensures that only correct configurations are available for selection.

The Product Finder for valve terminals is part of the electronic catalogue and is not available as a separate software program.

This tool can be found

- on our website at [www.festo.com/catalogue](http://www.festo.com/catalogue) by clicking on the blue button "Product Finder".

Customised components – for your specific requirements

**Valve terminals with customised designs**

Can't find the valve terminal you need in our catalogue?

We can offer you customised components that are tailored to your specific requirements.

Common product modifications:

- Coatings for special ambient conditions
- Customised cables: length, pin allocation, pre-assembled with plug
- Modified actuating elements
- Modified connecting thread
- Modified valve sub-bases

Many additional variants are possible.

Ask your Festo sales engineer, who will be happy to help:

Product overview

Software-Tools

<p><b>Configurator</b></p> 	<p>Design a product with numerous features reliably and quickly with the help of the configurator.</p> <p>Select all the required product features step-by-step. The use of logic checks ensures that only correct configurations are available for selection.</p> <p>A dynamic graphic generated on the basis of the configuration provides a visual aid for selecting the correct product features.</p> <p>The configurator is part of the electronic catalogue and is not available as a separate software program.</p>
<p><b>Festo Design Tool 3D</b></p> 	<p>The Festo Design Tool 3D is a 3D product configurator for generating specific CAD product combinations from Festo.</p> <p>The configurator makes your search for the right accessory easier, more reliable and faster.</p> <p>You can then order the module that has been created as a single order item, either completely pre-assembled or as individual parts in a single box.</p> <p>This considerably reduces your bill of materials, and downstream processes such as product ordering, order picking and assembly are significantly simplified.</p> <p>All ordering options are available in the following countries: AT, BE, CH, CZ, DE, DK, ES, EST, FI, FR, GB, GR, HU, IE, IT, NL, NO, PL, PT, RU, SE, SI, SK, TR, ZA.</p> <p>This tool can be found</p> <ul style="list-style-type: none"> <li>via the address: <a href="http://www.festo.com/fdt-3d-online">www.festo.com/fdt-3d-online</a> in the countries listed above.</li> </ul>

## Product overview

### Position sensors

	 <p><b>Position sensors SRBS</b></p>
<b>Design</b>	Round
<b>Sensing range</b>	>270°
<b>Analogue output</b>	50 mA
<b>Electrical connection 1, connection type</b>	Cable with plug
<b>Electrical connection 1, connection technology</b>	M8x1 A-coded to EN 61076-2-104
<b>Electrical connection 1, occupied pins/wires</b>	4
<b>Description</b>	<ul style="list-style-type: none"> <li>• Used to detect rotation of the shaft on semi-rotary drives DRVS and DSM</li> <li>• The sensor can be quickly assembled without having to manually search for switching points</li> <li>• Simple and reliable operation using just one pushbutton directly on the device</li> </ul>
<b>→ Page/online</b>	<b>129</b>

### Pressure and vacuum sensors

	 <p><b>Pressure sensors SDE5</b></p>	 <p><b>Pressure sensors SPAN</b></p>	 <p><b>Pressure sensors SPAE</b></p>
<b>Pressure measuring range</b>	-1 ... 10 bar	-1 ... 16 bar	-1 ... 10 bar
<b>Switching element function</b>	N/C, N/O, switchable	N/C or N/O, switchable	N/C, N/O, switchable
<b>Pneumatic connection</b>	QS-1/4, QS-4, QS-5/32, QS-6	Male thread 1/8 NPT, male thread G1/8, R1/8, female thread G1/8, M5, for tubing O.D. 4	Flange, cartridge 10, push-in sleeve QS-4, QS-6, QS-3, QS-4
<b>Electrical connection</b>	Cable, plug, round design, to EN 60947-5-2, 3-pin, 3-wire, M8x1	Plug, square design, 4-pin	Cable, open end, 3-wire
<b>Display type</b>		Illuminated LCD	LED display, 2-digit
<b>Description</b>	<ul style="list-style-type: none"> <li>• Programmable and configurable pressure switch for simple pressure sensing tasks</li> <li>• Threshold/window comparator</li> <li>• Switching point adjustment by teach-in function</li> <li>• Integrated microprocessor</li> <li>• Switching status indication by an LED visible from all sides</li> <li>• Certification: c UL us Listed (OL), C-Tick</li> </ul>	<ul style="list-style-type: none"> <li>• For monitoring compressed air and non-corrosive gases</li> <li>• For network monitoring, regulator monitoring, leak testing, object detection</li> <li>• Relative measurement method based on a piezo-resistive measuring cell</li> <li>• Serial communication integrated using IO-Link® 1.1</li> <li>• Compact design 30 x 30 mm</li> <li>• High-contrast, blue backlit display</li> </ul>	<ul style="list-style-type: none"> <li>• Electronic pressure sensor with piezoresistive pressure measuring cell, integrated signal processing, numeric pressure indicator in percent, operating key and a switching output, PNP/NPN switchable</li> <li>• Display of minimum and maximum measured value</li> <li>• All parameters entered can be transferred to other SPAEs (replicator function)</li> <li>• IO-Link® communication interface</li> </ul>
<b>→ Page/online</b>	<b>130</b>	<b>132</b>	<b>spae</b>

## Pressure and vacuum sensors

	 Pressure sensors SPAU	 Pressure switches, vacuum switches PEV, VPEV
<b>Pressure measuring range</b>	-1 ... 16 bar	-1 ... 10 bar
<b>Switching element function</b>	N/C or N/O, switchable	Changeover switch
<b>Pneumatic connection</b>	Flange, 1/8 NPT, G1/8, M5, M7, QS-4, QS-5/32, QS-6, R1/4, R1/8	G1/4, G1/8, M5
<b>Electrical connection</b>		Plug, screw terminal, round design, square design, to DIN 43650, to EN 60947-5-2, type A, 4-pin, M8x1, M12x1
<b>Display type</b>	Illuminated LCD, LED	
<b>Description</b>	<ul style="list-style-type: none"> <li>• For monitoring compressed air and non-corrosive gases</li> <li>• With or without display</li> <li>• Transfer of the pressure value as switching signal, analogue signal or via IO-Link® to the connected control system</li> <li>• Maximum flexibility thanks to versatile pneumatic adaptation and switchable electrical outputs</li> </ul>	<ul style="list-style-type: none"> <li>• Mechanical pressure and vacuum switch</li> <li>• Adjustable switching point</li> <li>• Mounting: screw-in, via through-holes or via H-rail</li> <li>• Visual scale for pressure adjustment</li> <li>• Certification: CCC, c UL us – Recognized (OL), RCM</li> </ul>

## Flow sensors

	 Flow sensors SFAH
<b>Flow measuring range final value</b>	0.1 ... 200 l/min
<b>Operating medium</b>	Argon, nitrogen, compressed air to ISO 8573-1:2010 [6:4:4]
<b>Operating pressure</b>	-0.9 ... 10 bar
<b>Pneumatic connection</b>	Female thread G1/4, G1/8, for tubing O.D. 4, 6, 8
<b>Electrical connection 1, connection type</b>	Plug
<b>Electrical connection 1, connection technology</b>	Connection pattern L1J, M8x1 A-coded to EN 61076-2-104
<b>Description</b>	<ul style="list-style-type: none"> <li>• Process, compressed air, forming gas and pneumatic object monitoring, handling of ultra-small parts, leak test</li> <li>• Compact design 20 x 58 mm</li> <li>• Clear 2-line display</li> <li>• Mounting: H-rail mounting, wall or surface mounting, front panel mounting</li> <li>• Serial communication integrated using IO-Link® 1.1</li> </ul>

## Proximity sensors SME-8M/SMT-8M, for T-slot ★

- Switching output via reed contact or non-contacting
- Insertable in the slot from above, does not protrude beyond the cylinder profile
- Variant suitable for use with energy chains and robots
- Cable clip and inscription labels included in the scope of delivery
- With switching status indication
- Selected types in accordance with ATEX directive for potentially explosive atmospheres

Straight plug, M12x1	NECU-S-M12G3-HX	562027

Proximity sensors SME-10M/SMT-10M, for C-slot ★

- Switching output PNP, NPN or non-contacting, 2-wire
- Insertable in the slot from above, does not protrude beyond the cylinder profile
- Suitable for use with energy chains and robots
- Cable clip and inscription labels included in the scope of delivery
- With switching status indication

Order code – Basic design

Product overview

Software-Tools

<p><b>Air consumption</b></p>		<p>Calculate your system's air consumption quickly and conveniently. Simply enter all the drives and tubing, set the cycle times and working pressure and the air consumption per minute and per day will be calculated for you. It includes a feature for exporting the input table together with the result directly to Excel.</p> <p>This tool can be found</p> <ul style="list-style-type: none"> <li>on our website at <a href="http://www.festo.com/catalogue">www.festo.com/catalogue</a> by clicking on the blue button "Engineering".</li> </ul>
<p><b>Configurator</b></p>		<p>Design a product with numerous features reliably and quickly with the help of the configurator. Select all the required product features step by step. The use of logic checks ensures that only correct configurations are available for selection.</p> <p>A dynamic graphic generated on the basis of the configuration provides a visual aid for selecting the correct product features.</p> <p>The configurator is part of the electronic catalogue and is not available as a separate software program.</p>

## Filter regulators/lubricators: MS series

	 <p><b>Service units</b> MSB4-FRC, MSB6-FRC</p>
<b>Pneumatic connection 1</b>	G1/2, G1/4, G1/8, G3/8
<b>Standard nominal flow rate</b>	850 ... 4800 l/min
<b>Pressure regulation range</b>	0.3 ... 12 bar
<b>Operating pressure</b>	0.8 ... 20 bar
<b>Grade of filtration</b>	5 µm, 40 µm
<b>Description</b>	<ul style="list-style-type: none"> <li>• Filter, regulator and lubricator functions in a single unit</li> <li>• High flow rate and highly efficient in removing contaminants</li> <li>• Good regulation characteristics with minimal pressure hysteresis</li> <li>• Size 4, 6</li> </ul>
<b>→ Page/online</b>	143

## Filter regulators: MS series

	 <p><b>Filter regulators</b> MS2-LFR, MS4-LFR, MS6-LFR, MS9-LFR, MS12-LFR</p>
<b>Pneumatic connection 1</b>	Internal, G1/2, G1/4, G1/8, G3/8, M5, QS-6
<b>Standard nominal flow rate</b>	140 ... 24000 l/min
<b>Pressure regulation range</b>	0.3 ... 16 bar
<b>Operating pressure</b>	0.8 ... 20 bar
<b>Grade of filtration</b>	5 µm, 40 µm
<b>Description</b>	<ul style="list-style-type: none"> <li>• MS2-LFR, MS4-LFR, MS6-LFR: directly actuated diaphragm regulator, MS9-LFR: piloted or directly actuated filter-diaphragm regulator, MS12-LFR: piloted diaphragm regulator without internal air consumption</li> <li>• Good control characteristics with minimal pressure hysteresis and primary pressure compensation</li> <li>• Good particle and condensate separation</li> <li>• With or without secondary venting</li> <li>• High flow rate</li> <li>• Lockable rotary knob</li> <li>• Return flow option for exhausting from output 2 to input 1 already integrated</li> <li>• Sizes: 2, 4, 6, 9, 12</li> </ul>
<b>→ Page/online</b>	145

Product overview

Filter regulators: Individual devices

	 <p>Filter regulators PCRP</p>
<b>Pneumatic connection 1</b>	G1/2, G1/4, NPT1/2-14, NPT1/4-18
<b>Standard nominal flow rate</b>	1920 ... 4115 l/min
<b>Pressure regulation range</b>	0.5 ... 12 bar
<b>Operating pressure</b>	1 ... 20 bar
<b>Grade of filtration</b>	5 µm, 40 µm
<b>Description</b>	<ul style="list-style-type: none"> <li>• Robust housing for the specific requirements of process automation</li> <li>• Suitable for use outdoors and at temperatures down to -60 °C</li> <li>• Resistant to UV radiation and corrosive environments</li> <li>• With manual condensate drain, rotating</li> <li>• Size: 64</li> </ul>
<b>→ Page/online</b>	<a href="#">pcrp</a>

Regulators: MS series

	 <p>Pressure regulators MS2-LR, MS4-LR, MS6-LR, MS9-LR</p>		 <p>Pressure regulators MS12-LR</p>
<b>Pneumatic connection 1</b>	G1/2, G1/4, G1/8, G3/8, M5, QS-6		Connecting plate
<b>Standard nominal flow rate</b>	170 ... 30000 l/min		12000 ... 22000 l/min
<b>Pressure regulation range</b>	0.3 ... 16 bar		0.15 ... 16 bar
<b>Operating pressure</b>	0.8 ... 20 bar		0.8 ... 21 bar
<b>Max. pressure hysteresis</b>	0.25 ... 0.4 bar		0.04 ... 0.4 bar
<b>Description</b>	<ul style="list-style-type: none"> <li>• High flow rate with minimal pressure drop</li> <li>• Good control characteristics with minimal pressure hysteresis and primary pressure compensation</li> <li>• With or without secondary venting</li> <li>• Lockable rotary knob</li> <li>• Optional pressure sensor and rotary knob pressure gauge</li> <li>• Sizes: 2, 4, 6, 9</li> </ul>		<ul style="list-style-type: none"> <li>• High flow rate with minimal pressure drop</li> <li>• Good control characteristics with minimal pressure hysteresis and primary pressure compensation</li> <li>• With secondary venting</li> <li>• Lockable rotary knob</li> <li>• MS12-LR-...-PO: pneumatically actuated (pressure range determined via pilot control)</li> <li>• MS12-LR-...-PE6: solenoid actuated (pilot control via proportional pressure regulator)</li> <li>• Size: 12</li> </ul>

Customised components – for your specific requirements

**Components for compressed air preparation with customised designs**

Can't find the compressed air preparation components you need in our catalogue?

We offer you customised components that are tailored to your specific requirements.

Common product modifications:

- Modified pressure range
- Rotary knob: in a special colour, with protection against rotation
- Fitting: integrated throttling port, special thread
- Tubing with special printing
- Pressure gauge with red-green range

Many additional variants are possible.

Ask your Festo sales engineer, who will be happy to help:

→ [www.festo.com/contact](http://www.festo.com/contact)

- For filtered and unlubricated compressed air
- Supply pressure can be opened and closed
- Output pressure is infinitely adjustable within the pressure regulation range
- Flow rate 950 ... 5500 l/min
- Operating pressure 0.8 ... 18 bar
- Grade of filtration 40 µm
- Manual rotary condensate drain

Combinations comprising:

- ① Manually operated on/off valve, filter regulator with lockable pressure gauge, mounting bracket
- ② Manually operated on/off valve, filter regulator with lockable pressure gauge, branching module with pressure switch, mounting bracket

- ③ Manually operated on/off valve, filter regulator with lockable pressure gauge, solenoid actuated on/off valve with pressure sensor for operational status indicator, mounting bracket

### Order code – Basic design

- Filter, regulator and lubricator functions in a single unit
- High flow rate and highly efficient in removing contaminants
- Good control characteristics with minimal pressure hysteresis
- Set values are secured by locking the rotary knob
- Flow rate 850 ... 4800 l/min
- Operating pressure 1.5 ... 20 bar
- Grade of filtration 40 µm
- Manual rotary condensate drain

4	MS4-WPM-D	★ 526060
6	MS6-WPM-D	★ 526073

- Maintains a constant working pressure independent of pressure fluctuations and air consumption
- High flow rate with minimal pressure drop
- Connection G1/4, G1/2
- Flow rate 1000 ... 7500 l/min
- Operating pressure 0.8 ... 20 bar
- Selected types in accordance with ATEX directive for potentially explosive atmospheres

Software-Tools

<p><b>Product Finder for tubing</b></p> 	<p>Simply enter parameters such as working pressure, chemicals and required resistance to cleaning agents and have the program calculate the right tubing for your application.</p> <p>This tool can be found</p> <ul style="list-style-type: none"> <li>on our website at <a href="http://www.festo.com/catalogue">www.festo.com/catalogue</a> by clicking on the blue button "Product Finder".</li> </ul>
<p><b>Festo Design Tool 3D</b></p> 	<p>The Festo Design Tool 3D is a 3D product configurator for generating specific CAD product combinations from Festo.</p> <p>The configurator makes your search for the right accessory easier, more reliable and faster.</p> <p>You can then order the module that has been created as a single order item, either completely pre-assembled or as individual parts in a single box.</p> <p>This considerably reduces your bill of materials, and downstream processes such as product ordering, order picking and assembly are significantly simplified.</p> <p>All ordering options are available in the following countries: AT, BE, CH, CZ, DE, DK, ES, EST, FI, FR, GB, GR, HU, IE, IT, NL, NO, PL, PT, RU, SE, SI, SK, TR, ZA.</p> <p>This tool can be found</p> <ul style="list-style-type: none"> <li>via the address: <a href="http://www.festo.com/fdt-3d-online">www.festo.com/fdt-3d-online</a> in the countries listed above.</li> </ul>

Overview: Tubing/fitting combinations

Everything from a single source – for the ideal combination

Our range of tubing and fittings covers every conceivable task. Regardless of whether your selection is determined by standard requirements or extreme conditions such as heat, welding spatter, high pH values or resistance to hydrolysis – at Festo you'll always find the right tubing/fitting combination.

Tubing

Material	Polyurethane (PU)					Polyethylene (PE)		Polyamide (PA)				Perfluoroalkoxy alkane

Tubing > Standard O.D. tubing >

## Plastic tubing PUN-H, hydrolysis-resistant ★

- Extremely flexible polyurethane tubing
- Suitable for use with energy chains
- Operating media: compressed air, vacuum, water
- PUN-H-T: transparent version for greater safety, e.g. solid particles can be detected immediately
- Food-safe (see → [www.festo.com/sp/pun-h](http://www.festo.com/sp/pun-h) > "Certificates" tab) and FDA-compliant
- Individual configuration for plastic tubing

Couplings >

Quick coupling sockets/plugs NPHS-D/NPHS-S, KD ★

Safety coupling NPHS

- To ISO 4414
- Releasing sleeve made of metal or polymer
- Integrated hand slide valve
- Shut-off at one end

Plug-in coupling KD4

- For standard applications, without safety function
- Housing made from nickel-plated brass
- Releasing sleeve made from polymer
- Shut-off at one end
- Quick coupling sockets KD4 can be combined with all quick coupling plugs NPHS-S6

Product overview

Software-Tools

**Configurator**

Design a product with numerous features reliably and quickly with the help of the configurator.

Select all the required product features step by step. The use of logic checks ensures that only correct configurations are available for selection.

A dynamic graphic generated on the basis of the configuration provides a visual aid for selecting the correct product features.

The configurator is part of the electronic catalogue and is not available as a separate software program.

Universal connecting cables

Connecting cables  
**NEBU**

<b>Electrical connection, connection type</b>	Socket, cable, plug
<b>Electrical connection, cable outlet</b>	Straight, angled, can be adjusted in 15° steps
<b>Electrical connection, design</b>	Round
<b>Electrical connection, connection technology</b>	M8x1 A-coded to EN 61076-2-104, G7/8 coded to NFPA/T3.5.29 R1-2007, M12x1 A-coded to EN 61076-2-101, open end
<b>Electrical connection, number of pins/wires</b>	3, 4, 5, 8
<b>Cable length</b>	0.1 ... 30 m

Cables > Connecting cables, universal >

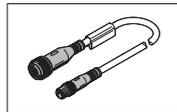

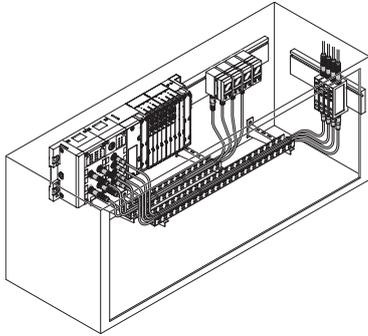

## Overview: Connecting cable NEBU, universal ★

The configurable connecting cables offer unlimited combinations in terms of plug sockets, cable lengths, cable qualities and plugs. They match all devices with M8 and M12 plugs such as proximity sensors, position transmitters, pressure and flow sensors, optical and inductive sensors as well as individual valves. Cable

lengths are freely selectable within a range of 0.1 ... 30 m.

The ends and middle pieces can also be freely selected for maximum customisation.

### Basic

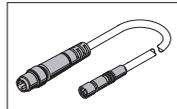

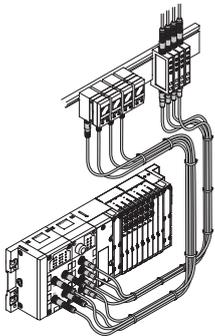

#### Applications

Static installation, no or small mechanical load

#### Properties of basic cables

Price-optimised cable for simple, mainly static applications

### Standard

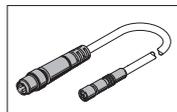

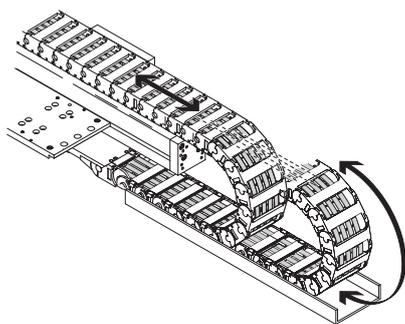

#### Applications

Low to average mechanical load, energy chains with large radius  $\geq 75$  mm

#### Properties of standard cables

Good oil resistance, good bending properties, suitable for use with energy chains

### Energy chain

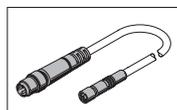

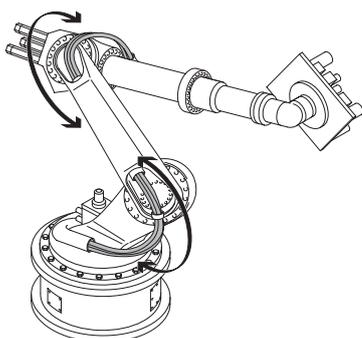

#### Applications

Energy chain applications involve high mechanical loads, particularly if very small radii are required.

#### Properties of cables suitable for use with energy chains

Very good oil resistance, very good bending properties, highly suitable for energy chains, halogen-free

### Robot

#### Applications

Robot applications involve high mechanical loads that are primarily caused by torsion.

#### Properties of robot cables

Very good oil resistance, very good bending properties, suitable for use with energy chains, halogen-free

The technical data as well as an overview of the range of options for the connecting cables NEBU can be found online

## Standardising and automating process valves

Fully automated process valves from a single source make planning, procurement and commissioning significantly easier and cost effective. They eliminate a considerable amount of project management work, reduce warehousing costs for spare parts, and speed up service and maintenance.

### Quarter turn actuator DFPD

The new benchmark for quarter turn actuators. Its range of variants and standardised hole patterns to NAMUR VDI/VDE 3845 for pilot valves open up a wide variety of possible applications.  
→ 199

### Position sensing for all application areas

Whether for open solutions with the sensor SRBG, the sturdy sensor box SRBC for basic applications in indoor and outdoor areas, or the all-rounder SRBE for explosion-proof areas, Festo always has the right solution.  
→ 198

### An alternative to the sensor box: the reliable positioner CMSX for analogue control

It enables the positions of quarter turn actuators to be accurately sensed and flow rates to be controlled, for example.  
→ 198

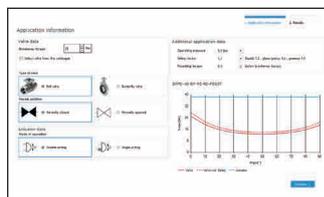

### Standard NAMUR valve VSNC

Controls quarter turn actuators and linear actuators with a VDI/VDE 3845 interface. Globally certified in accordance with current Ex standards. Now also available with poppet valve technology.  
→ 197

### Pilot valves VOFC/VOFD

An extremely sturdy alternative to the valve VSNC. Ideal for outdoor areas and potentially explosive atmospheres. The extremely sturdy VOFC/VOFD can control valve actuators in the chemical, petrochemical and pharmaceutical production plants of leading companies worldwide.  
→ 197

Software tools for easy selection and configuration of process valve units.

## Accessories for valves

	 <b>Solenoid coils VACC-S13-18-K4-...-EX4ME</b>
<b>Electrical connection</b>	Terminal box, cable entry thread M20x1.5
<b>Characteristic coil data</b>	24 V DC: 1.8 W, 24 V AC: 40/65 Hz, power 1.8 VA, 60 V AC: 40/65 Hz, power 1.8 VA, 60 V DC: 1.8 W, 110 V DC: 1.8 W, 110 V AC: 40/65 Hz, power 1.8 VA, 230 V DC: 1.8 W, 230 V AC: 1.8 W
<b>Degree of protection</b>	IP65
<b>Description</b>	<ul style="list-style-type: none"> <li>• To EU Explosion Protection Directive (ATEX)</li> <li>• Compatible with solenoid valves VOFC, VOFD, with 13 mm armature tube</li> <li>• With encapsulation, enhanced safety</li> <li>• Variant with internal fuse</li> </ul>
<b>→ Page/online</b>	216

## Product overview

### Sensor boxes

	 <b>Sensor boxes SRBC</b>	 <b>Sensor boxes SRBG</b>	 <b>Sensor boxes SRBE</b>
<b>Information on materials - housing</b>	Die-cast aluminium	PBT	Die-cast aluminium
<b>Operating voltage range AC</b>	0 ... 250 V		0 ... 250 V
<b>Operating voltage range DC</b>	0 ... 175 V	6 ... 60 V	0 ... 60 V
<b>Measuring principle</b>		Inductive	Inductive, magnetic reed, mechanical/electrical, for proximity sensor
<b>Switching element function</b>	N/C contact, N/O contact, toggle switch, single-pole	N/C contact, N/C contact or N/O contact, switchable, N/O contact	N/C contact, N/O contact, toggle switch, single-pole, toggle switch, double-pole
<b>Description</b>	<ul style="list-style-type: none"> <li>• Pre-assembled mounting adapter for ease of installation</li> <li>• Trip cams can be set easily without additional tools</li> <li>• Sturdy, corrosion-resistant design, ideal for use in harsh ambient conditions</li> <li>• Clearly visible 3D position indicator allows rapid detection of the current position of the quarter turn actuator</li> </ul>	<ul style="list-style-type: none"> <li>• Compact housing with M12 plug connection</li> <li>• Direct mounting on quarter turn actuators to VDI/VDE 3845</li> <li>• AS-Interface version with extended addressing</li> <li>• Intrinsically safe version to ATEX and SIL 2 to IEC 61508</li> </ul>	<ul style="list-style-type: none"> <li>• Trip cams can be set easily without additional tools</li> <li>• Sturdy, corrosion-resistant design, ideal for use in harsh ambient conditions</li> <li>• Clearly visible 3D position indicator allows rapid detection of the current position of the quarter turn actuator</li> </ul>
<b>→ Page/online</b>	205	<a href="#">srbg</a>	<a href="#">srbe</a>

### Positioners

	 <b>Positioners CMSX</b>
<b>Standard nominal flow rate</b>	50 ... 130 l/min
<b>Ambient temperature</b>	-5 ... 60°C
<b>Reference value</b>	0 - 20 mA, 4 - 20 mA, 0 - 10
<b>Operating voltage range DC</b>	21.6 ... 26.4 V
<b>Operating pressure</b>	3 ... 8 bar
<b>Safety information</b>	Safety position: in the case of a broken cable or operating voltage failure, the regulating action is to hold. Safety position: in the case of a broken cable or an operating voltage failure, the regulating action is opening/closing.
<b>Degree of protection</b>	IP65
<b>Type of mounting</b>	Via accessories, on flange ISO 5211
<b>Information on housing materials</b>	PC
<b>Description</b>	<ul style="list-style-type: none"> <li>• Digital electropneumatic positioner for single-acting or double-acting pneumatic quarter turn actuators and double-acting pneumatic linear actuators</li> <li>• No air consumption in the regulated state</li> </ul>
<b>→ Page/online</b>	207

## Linear actuators

	 Copac linear actuators DLP	 Linear actuators with displacement encoder DFPI-NB3	 Linear actuators with displacement encoder DFPI
<b>Design</b>	Piston rod	Piston, piston rod, tie rod, cylinder barrel	Piston, piston rod, profile barrel, tie rod, cylinder barrel
<b>Mode of operation</b>	Double-acting	Double-acting	Double-acting
<b>Size of valve actuator</b>	80, 100, 125, 160, 200, 250, 320	100, 125, 160, 200, 250, 320	100, 125, 160, 200, 250, 320
<b>Stroke</b>	40 ... 600 mm	40 ... 990 mm	40 ... 990 mm
<b>Operating pressure</b>	2 ... 8 bar	3 ... 8 bar	3 ... 8 bar
<b>Ambient temperature</b>	-20 ... 80°C	-20 ... 80°C	-20 ... 80°C
<b>Description</b>	<ul style="list-style-type: none"> <li>• Mounting interfaces for process valves to DIN EN ISO 5210</li> <li>• Connection pattern to NAMUR to VDI/VDE 3845</li> <li>• Integrated air supply</li> <li>• ATEX certification</li> </ul>	<ul style="list-style-type: none"> <li>• Mounting interfaces to ISO 15552</li> <li>• Sturdy tie rod design</li> <li>• Optionally with integrated displacement encoder or fully integrated positioner</li> <li>• IP65, IP67, IP69K, NEMA4</li> <li>• ATEX certification</li> </ul>	<ul style="list-style-type: none"> <li>• Mounting interfaces for process valves to DIN EN ISO 5210</li> <li>• Integrated air duct</li> <li>• Optionally with integrated displacement encoder or fully integrated positioner</li> <li>• IP65, IP67, IP69K, NEMA4</li> <li>• ATEX certification</li> </ul>
→ Page/online	<a href="#">dlp</a>	<a href="#">dfpi</a>	<a href="#">dfpi</a>

## Quarter turn actuators

	 Quarter turn actuators DAPS	 Quarter turn actuators DFPD
<b>Design</b>	Scotch yoke system	Rack and pinion
<b>Mode of operation</b>	Double-acting, single-acting	Double-acting, single-acting
<b>Size of valve actuator</b>	0008, 0015, 0030, 0053, 0060, 0090, 0106, 0120, 0180, 0240, 0360, 0480, 0720, 0960, 1440, 1920, 2880, 3840, 4000, 5760, 8000	10, 20, 40, 80, 120, 160, 240, 300, 480, 700, 900, 1200, 2300
<b>Flange hole pattern</b>	F03, F04, F05, F07, F10, F12, F14, F16, F25	F03, F04, F05, F07, F10, F12, F14, F16, F0507, F0710, F1012, F1216
<b>Swivel angle</b>	90°, 92°	90°, 120°, 135°, 180°
<b>Ambient temperature</b>	-50 ... 150°C	-50 ... 150°C
<b>Operating pressure</b>	1 ... 8.4 bar	2 ... 8 bar
<b>Description</b>	<ul style="list-style-type: none"> <li>• High breakaway torques</li> <li>• Approved in accordance with Directive 2014/34/EU (ATEX)</li> <li>• Flange hole pattern to ISO 5211</li> <li>• Mounting hole pattern to VDI/VDE 3845</li> <li>• Available with handwheel as a manual emergency override</li> <li>• Corrosion-resistant version made from stainless steel</li> </ul>	<ul style="list-style-type: none"> <li>• Constant torque across the entire rotation angle range of 90° with the double-acting version</li> <li>• Process valve connection to ISO 5211</li> <li>• Mounting hole pattern to VDI/VDE 3845</li> <li>• Sturdy, non-slip and easy-to-clean aluminium housing</li> <li>• Long service life, low wear</li> <li>• Version with swivel angle 120°, 135°, 180° for the sizes 40, 120, 240, 480, double-acting</li> </ul>

Product overview

Angle seat valves

	 <b>Angle seat valves VZXF</b>	 <b>Angle seat valves VZXA</b>
<b>Actuator size</b>		46 mm, 75 mm, 90 mm
<b>Design</b>	Poppet valve with piston actuator	Poppet valve with piston actuator, poppet valve with diaphragm actuator
<b>Valve function</b>	2/2-way, closed, monostable	2/2
<b>Control function</b>		Closed by reduced spring force, NC, double-acting, opened by spring force, NO, closed by spring force, NC
<b>Actuation type</b>	Pneumatic	Pneumatic
<b>Nominal width</b>	12 ... 45 mm	
<b>Flow rate Kv</b>	3.3 ... 43 m³/h	6 ... 68.5 m³/h
<b>Medium pressure</b>	-0.9 ... 40 bar	0 ... 30 bar
<b>Temperature of medium</b>	-40 ... 200°C	-10 ... 180°C
<b>Process valve PN nominal pressure</b>	16, 40	
<b>Description</b>	<ul style="list-style-type: none"> <li>Sturdy design</li> <li>Stainless steel and gunmetal (red brass) process valves with stainless steel, brass or aluminium actuators</li> <li>Safety position "closing"</li> <li>Different actuator sizes and housing materials</li> <li>Selection of different seat and shaft seals</li> <li>Flow direction is freely selectable</li> <li>For liquids, gases and other easily contaminated media</li> <li>Easy-to-clean design</li> </ul>	<ul style="list-style-type: none"> <li>Highly flexible, extremely high flow rates</li> <li>Long service life</li> <li>Modular design</li> <li>Hygienic design, insensitive to dirt</li> <li>Quick and easy maintenance</li> <li>Simple and sturdy: an ideal choice for virtually all media with a viscosity of up to 600 mm²/s</li> <li>High chemical and thermal resistance</li> </ul>

## Pneumatically actuated media valves

	 Pinch valves VZQA
<b>Design</b>	Pinch valve, pneumatically actuated
<b>Actuation type</b>	Pneumatic
<b>Nominal width DN</b>	6, 15, 25
<b>Process valve connection</b>	Clamp to ASME-BPE type A, clamp to ASME-BPE type B, clamp to DIN 32676 series A, 1 NPT, 1/2 NPT, 1/4 NPT, G1, G1/2, G1/4
<b>Flow rate Kv</b>	0.7 ... 18 m3/h
<b>Medium pressure</b>	0 ... 6 bar
<b>Temperature of medium</b>	-15 ... 150°C
<b>Valve function</b>	10
<b>Description</b>	<ul style="list-style-type: none"> <li>• Modular design</li> <li>• Quick and easy replacement of the diaphragm</li> <li>• Selection of different materials for housing and connection caps</li> <li>• Different connection cap designs (G and NPT thread), clamp ferrule to DIN 32676 and ASME-BPE</li> <li>• For critical, abrasive and viscous media</li> <li>• Up to 2 million switching cycles</li> <li>• FDA-compliant materials</li> <li>• Easy-to-clean design</li> <li>• Flow direction is freely selectable</li> </ul>

Product overview

Filter regulators: Individual devices

Filter regulators  
PCRP

<b>Pneumatic connection 1</b>	G1/2, G1/4, NPT1/2-14, NPT1/4-18
<b>Standard nominal flow rate</b>	1920 ... 4115 l/min
<b>Pressure regulation range</b>	0.5 ... 12 bar
<b>Operating pressure</b>	1 ... 20 bar
<b>Grade of filtration</b>	5 µm, 40 µm
<b>Description</b>	<ul style="list-style-type: none"> <li>• Robust housing for the specific requirements of process automation</li> <li>• Suitable for use outdoors and at temperatures down to -60 °C</li> <li>• Resistant to UV radiation and corrosive environments</li> <li>• With manual condensate drain, rotating</li> <li>• Size 64</li> </ul>
<b>→ Page/online</b>	<a href="#">pcrp</a>

- Measuring principle: electromagnetic, magnetic reed or inductive
  - Switching element function: toggle switch, single-pole (SPDT)
  - For DC and AC voltage
  - Pre-assembled mounting bridge
  - Cable connector and blanking plug included in the scope of delivery
  - Selected types in accordance with ATEX directive for potentially explosive atmospheres

3) Mounting flange adapter DARQ-K-X1-A1-F05-20-R1				
	Actuator outlet hole pattern	Size	Type	Part no.
For mounting sensor boxes on standards-based actuators to VDI/VDE 3845				
	30x130 mm	30	DARQ-K-X1-A2-F05-30-R1	3886114

2) Mounting flange adapter DARQ-K-X1-A1-F05-30-R1				
	Actuator outlet hole pattern	Size	Type	Part no.
For mounting sensor boxes on standards-based actuators to VDI/VDE 3845				
	30x80 mm	30	DARQ-K-X1-A1-F05-30-R1	3636270

- Positioners for single-acting and double-acting pneumatic quarter turn actuators and double-acting linear actuators in process automation systems
- High process reliability thanks to analogue and digital feedback signals
- The end position can be flexibly defined via the freely configurable analogue signal
- Very energy-efficient: no compressed air consumption at standstill
- For automated butterfly valves, ball valves, bulk goods deflectors, etc.

## Product options

DFPD-C series is suitable for the harsh conditions in the chemical industry

DFPD-HD Heavy-duty quarter turn actuator

Size

- 160, 240, 300, 480, 700, 900, 1200, 2300

Function

- Single-acting

System of units

- Imperial

Swivel angle

- 0 ... 180°

Swivel direction

- To the left

Spring configuration

- For connection pressure 2 ... 5.5 bar
- For connection pressure 6 bar

Flange pattern

Hole pattern F07, F10, F12, F14, F16

Temperature range

- 0 ... +150° C
- –50 ... +60° C

Shaft material

- Stainless steel

Housing surface treatment

- Epoxy-coated

Legend:  Mandatory entry  Optional entry

001	Type
VACC	Solenoid coil, C series
002	Solenoid coil type
S13	Solenoid coil, for 13 mm armature tube
003	Power consumption
18	1.8 W
004	Electrical connection
K4	Cable connector, metric
005	Operating voltage
1U	24 V DC/AC
2U	110 V DC/AC
3U	230 V DC/AC
27U	60 V DC/AC

006	Circuitry
-	None
F	With fuse
007	ATEX certification EU
EX4	ATEX category II 2GD
008	Type of ignition protection
ME	Encapsulation, enhanced safety

### Ordering

005 Operating voltage	Type	Part no.
24 V DC/AC	VACC-S13-18-K4-1U-EX4ME	★ 8109396
	VACC-S13-18-K4-1UF-EX4ME	★ 8109399
60 V DC/AC	VACC-S13-18-K4-27U-EX4ME	★ 8109400
110 V DC/AC	VACC-S13-18-K4-2U-EX4ME	★ 8109397
230 V DC/AC	VACC-S13-18-K4-3U-EX4ME	★ 8109398

## Energy efficiency

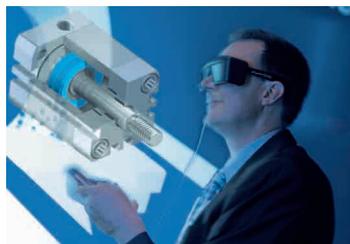

### Energy efficiency in focus

We make energy efficiency happen. You can rely on our technical experts and efficient technologies that will ensure your machines and systems consume fewer resources and less energy.

This not only reduces CO<sub>2</sub> emissions, but your operating costs too. And it leads to increases too, for example in the sustainability of your production processes and your company's productivity.

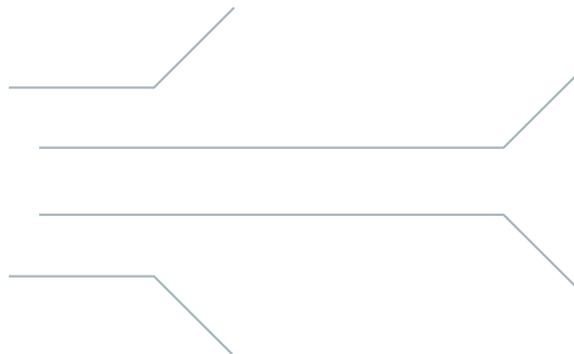

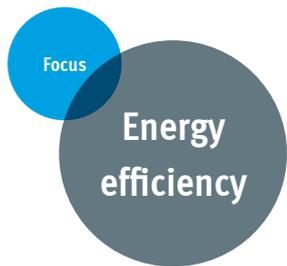

#### Intelligent design

- Intelligent and innovative selection software for designing systems correctly.
- Choose smaller components, avoid the accumulation of safety factors.

#### Products and solutions

- Festo offers products and solutions that use energy more efficiently so that you can realise significant potential savings right now,
- whether with high-performance, simple pneumatic systems or precise, highly dynamic automation technology.

#### Industrial education

- Take advantage of the expertise of our sales engineers and energy efficiency consultants.
- Benefit from Festo Didactic's close links to industry and its training portfolio.

#### Services

- Festo Energy Saving Services: the service package for the best possible utilisation of potential savings.
- From compressed air audits to the implementation of energy-saving solutions, our specialists support you with customised services.

Just ask your local contact person or find out more at  
[→ www.festo.com/energy](http://www.festo.com/energy)

## Festo pursues a mission of sustainable management of resources and long-term value enhancement

High energy prices, rising cost pressure and a growing awareness of climate protection have turned energy efficiency into a key business task. It applies to every part of an application and therefore requires a comprehensive approach. All parameters must be correct in order for a system or machine to be energy efficient, from the planning stage through to operation.

Pneumatic systems, too, offer attractive potential savings when it comes to energy efficiency. The key to success lies in taking a thorough look at pneumatic systems.

### A sample calculation: air supply switched off during standstills

#### Energy efficiency module MSE6-E2M.

- Assembly system with 20% leakage
- Daily usage: approx. 10 hours production and 14 hours standby
- System consumption per day without MSE6-E2M: 1242 Nm<sup>3</sup>
- System consumption per day with MSE6-E2M: 970 Nm<sup>3</sup>

#### Savings: 20%

#### Three functions to save money

- Automatic shut-off of the compressed air in standby mode
- Detection and notification of leakages
- Condition monitoring for process-related data, also for Industry 4.0
- With PROFINET for the three connection variants  
M12, RJ45, SCRJ

### Efficient measurement and analysis with the air-flow analyser SFGA

The proven plug & work concept from Festo has also inspired the design of the air-flow analyser. The ready-to-install analysis case can be used straightaway and includes everything you need for efficiently and flexibly measuring compressed air consumption and flow rates in your system.

#### Highlights

- Flexible flow rate and pressure measurement with a portable analysis device with integrated battery
- Extremely easy transfer of the measured values to a PC for data processing and documentation
- Including operating software
- Secure and tidy storage in the carrying case

### There are opportunities – seize them!

There are lots of opportunities for increasing energy efficiency in your production processes – they only need to be exploited! Take the time to search for possible approaches – it pays off.

Our tip: Ask for advice from the experts at Festo who are extremely knowledgeable about energy efficiency and have mastered the implementation of this integrated approach.

## Festo Services and Support

### Consistent and comprehensive support

Festo's service and support philosophy is based on a constant analysis of the value chains of different types of customers.

Festo has built on this knowledge to develop a sophisticated portfolio that supports you along your entire value chain.

It includes numerous services such as the Energy Saving Services, customised developments of ready-to-install solutions and special designs.

Our networked digital customer information system now consists of a data-base-driven catalogue with over 30,000 products and accessories as well as tools for configuration, planning and design. Globally standardised application platforms for product lifecycle, production, logistics, sales and finance help to create integrated, global processes for your benefit.

#### Engineering

- Consulting
- Design aids
- 2D/3D CAD drawings and models
- Design and sizing tools
- Selection tools
- Engineering of ready-to-install solutions

#### Procurement/logistics

- Festo Online Shop
- 24-hour delivery service
- Logistics optimisation service
- PrePack

#### Assembly and commissioning

- Commissioning axis systems
- Compressed air consumption analysis
- Commissioning and training for servo-pneumatic welding guns

#### Operation

- Worldwide after sales service
- Energy Saving Services
- Compressed air quality analysis
- Support portal with documentation for the entire product lifecycle

You will find further information about our services there.

## Food safety and efficiency ...

... are key requirements.

Our clever mix of solutions provides the perfect ingredients for production facilities that produce top-quality food economically.

→ [www.festo.com/food](http://www.festo.com/food)

→ [www.festo.com/packaging](http://www.festo.com/packaging)

## Reliable and efficient compressed air

Decide what kind of compressed air quality you need for your application. Our preconfigured service unit combinations are designed to meet your requirements and can be ordered with just a single part number. Save energy by automatically shutting off the compressed air in stand-by mode. The energy efficiency module E2M monitors and regulates the compressed air supply fully automatically.

## Certified food safe

Manage demanding applications for clean and safe dispensing of food with the pneumatic pinch valve VZQA.

Its silicone diaphragm comes in an N/O variant and with a declaration of conformity in accordance with Regulation (EC) No. 1935/2004. This pinch valve variant has thus been approved for direct contact with food products.

## Maximum performance

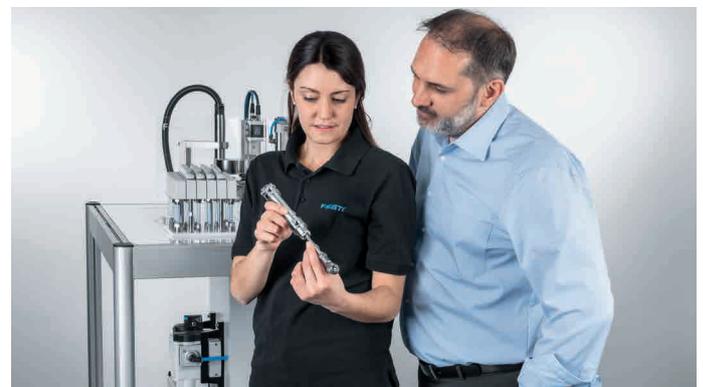

Fast, simple and energy-efficient.

Decentralised valve terminal concepts increase the productivity of your systems. With the clean design valve terminal MPA-C there's no need for a control cabinet thanks to degree of protection IP69K.

Or you can use valve terminal VTUG in the control cabinet, with multi-pin plug, all common fieldbuses or IO-Link®.

## High operational reliability

Reliable components are essential for high machine availability.

Take the stainless-steel cylinder CRDSNU from our clean design drive portfolio, for example. It's always correctly set thanks to the self-adjusting end position cushioning system PPS – without the need for a dirt-prone adjusting screw.

## Training and consulting

Festo is a world-leading supplier of automation technology and, together with Festo Didactic, the international market leader for technical training solutions. As an integral part of the Festo Group, Festo Training and Consulting is rooted in the world of automation, and industry is just part of its DNA.

### Overview of topics

We work closely with Festo Automation and operate in the same segments as our customers. This provides us with in-depth insights into our customers' challenges and enables us to offer tailored and practical training courses for industry. Our main focus is on the core business of automation technology.

- Pneumatics
- Hydraulics
- PLCs (programmable logic controllers)
- Electrical engineering/electronics
- Process automation
- Handling systems
- Water management
- Maintenance
- Supply chain management
- Lean production
- Process optimisation
- Service and sales competence
- Industry 4.0

### Training offered

- Public courses
- Company-specific training courses
- Consulting
- Coaching
- Skills programmes
- Business games
- Learning needs analysis, certification, blended learning concepts

### Our competency – based on actual practice for real-life applications

- Industry-focused
- Global
- Customer-oriented
- Over 50 years of experience
- Certified to DIN ISO 29990:2010 as a learning service provider
- Practical learning with state-of-the-art equipment and systems
- Trainers with many years of practical experience
- In-depth knowledge of training methods and principles
- 2,900 courses annually
- 39 languages
- 42,000 participants worldwide

Do you want more details about Festo Didactic's programme or courses in your area?

## What must be taken into account when using Festo products?

The limit values specified in the technical data and any specific safety instructions must be adhered to by the user in order to ensure correct functioning.

The pneumatic components must be supplied with correctly prepared compressed air without aggressive media.

Take the ambient conditions at the place of use into consideration. Corrosive, abrasive and dusty environments (e.g. water, ozone, grinding dust) will reduce the service life of the product.

Check the resistance of the materials of Festo products to the media used and surrounding media.

When Festo products are used in safety-oriented applications, all national and international laws and regulations, for example the EC Machinery Directive, must be observed and complied with together with the relevant references to standards, trade association rules and the applicable international regulations.

Unauthorised conversions or modifications to products and systems from Festo constitute a safety risk and are thus not permitted.

Festo does not accept any liability for any resulting damage.

You should contact Festo if one of the following applies to your application:

- The ambient conditions and conditions of use or the operating medium differ from the specified technical data.
- The product is to perform a safety function.
- A risk or safety analysis is required.
- You are unsure about the product's suitability for the planned application.
- You are unsure about the product's suitability for use in safety-oriented applications.

All technical data is correct at the time of going to print.

All content, texts, representations, illustrations and drawings included in this catalogue are the intellectual property of Festo SE & Co. KG and are protected by copyright law.

Any duplication, processing, translation, microfilming, storage, or processing in electronic systems of any kind whatsoever without the consent of Festo SE & Co. KG is prohibited.

All technical data is subject to change according to technical updates.
