Intelligent solution for control cabinets and electrical enclosures

- Ergonomically designed wiring duct covers for easy mounting and unmounting
- Ribs can be simply removed by bending them 90° at the upper break point
- Base break perforation for separation of wall (sections) from base of wiring duct
- Base rail designed for simple mounting of wiring duct accessories
- Smart rib structure for optimal wire placement

Comfortable mounting/unmounting of duct cover

- The smart design of the wiring ducts makes mounting and unmounting of the cover extremely simple
- Even fully wired ducts can be maintained easily and quickly

Durable and reliable

- Thanks to the compact yet spacious design the complete interior space is available for wiring
- Even with the maximum number of wires inside the wiring duct stays rigid and in place

Design

- The special ribbed structure makes it easy to route cable bundles into or out of the duct

Fast and efficient

- No tools needed. Simply bend the ribs 90° and break them off while in place in the control cabinet or enclosure
- Saves time, because ribs can be broken out in pairs or groups

Easy wiring

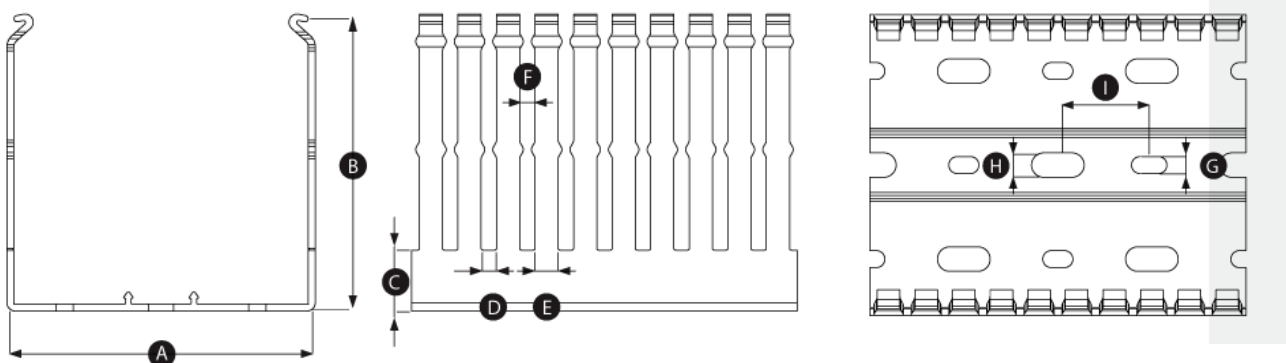

- Cable management has just become easier than ever
- Cable retainers can be easily affixed to the bottom rail of the wiring duct and pushed into place along the rail

Product properties

- Insulating material: PVC, UL94 classified: V-0
- Colour: RAL 7030 grey
- Operating temperature: -15°C to 35°C
- Built in accordance with RoHS regulations
- Built in accordance with IEC 60695-2-1 and EN 50085-2-3
- Standard length: 2 metres
- Delivery package: Base and cover as bundle

Wiring Ducts KVN
